# FOR THE AMERICAN LEGION

## DAWES WAR CRIMES

### GIVES UNEXPURGATED OPINION OF PINK-TEA DIPLOMATS IN SPEECH

(BY A. P. NIGHT WIRE.)  
WASHINGTON, Feb. 2.—Declaring he was not in politics and was not going in, Charles G. Dawes of Chicago, former chief of supply procurement for the American Army in France, attacked today what he charged was political attempts to discredit achievements of the people who won the war.

### DISARMING IN WARNING.

Disarmament Plan Unwise, Unsafe.  
Many Chief Expresses Fear of National Pacifism Frame of Mind.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, Feb. 2.—Congressional disarmament today, but without considering large appropriations for the army and navy and without the views of President-elect Harding on the nation's military policy.

General Kahn of the Military Academy told the House in debate that the military appropriation bill had been informed by Mr. Harding that the latter favored a strong army of 175,000 men for the present, and also legislation providing for the voluntary military training of the youth.

The House Naval Committee report from Gen. Pershing a warning against a disarmament campaign, and was accompanied by a statement that until all world powers had agreed on a disarmament treaty, it would be "unwise and unwise to disarm at such a time as this, carrying out his army and navy policy."

UNSAFE AND UNWISE.  
"We should steer clear of drifting into a pacifist state of mind, simply because it is a state of mind," said Gen. Pershing, asserting, "None of us want war, but we do not want to disarm at such a time as this, carrying out his army and navy policy."

### DISCUSS PACIFIC SHIPPING.

Hard to Hear Representatives of Coast Interests February 21.  
(BY A. P. NIGHT WIRE.)  
WASHINGTON, Feb. 2.—Hearings will be held by the Shipping Board today to discuss with representatives of the Pacific Coast ports the question of trade routes and the allocation of vessels for these routes to the Pacific Coast ports to ports in the Far East.

### HARDING IS BEHIND TIME ON HIS TRIP.

Houseboat Grounds in Mud and Florida River Trip is off Schedule.  
(BY A. P. NIGHT WIRE.)  
FORT LAUDERDALE (Fla.) Feb. 2.—Making a lame start on her way up the Florida coast, the Houseboat Victoria, bearing President-elect Harding, anchored near here tonight a full half day behind schedule. Only ten miles out of Miami this morning the Victoria ran into a mud reef in the Indian River channel and was held fast for hours.

The finally was pulled off into this stream by a yacht sent to her aid, and she was forced to pick her way slowly.

The President-elect was not on board when she grounded, having disembarked the thirty miles to Fort Lauderdale and played a game of golf.

Two Irish Police Slain.  
DUBLIN, Feb. 2.—A number of auxiliary police were ambushed today at Ballinacorney. Two of them were killed and nine wounded.

### RAILROAD COMMISSION SCORES AT HEARING.

Assistant City Attorney of San Francisco Says It Would be Crime to Abolish Body.  
(EXCLUSIVE DISPATCH.)  
SAN FRANCISCO, Feb. 2.—The Railroad Commission scored heavily today in the hearing before the legislative investigating committee which is investigating the commission's past activities during the constitutional recess, with the view of making recommendations on certain changes in the organic laws governing the rate-making body.

Nearly all of the testimony was given by friends of the commission and naturally was pleasant for all hands to hear and they were all five on hand, including Chester H. Rowell, the newly appointed member, who strode into the room in the middle of the afternoon session. Rowell took no part in the proceeding except to listen and to clear up points.

Acquit Lad of Murder Charge.  
PORT WORTH (Tex.) Feb. 2.—After deliberating one hour, a jury in juvenile court here today acquitted George Eaton Rogers, 11 years old, of a charge of murder in connection with the death on January 18 of Ernest Champion, his playmate, who was instantly killed by a discharge from a shotgun.

Scotch Collie Saves Cattle.  
SAV. CLAIRE (Wis.) Feb. 2.—"Sport" a Scotch collie dog, rescued thirty head of cattle from a burning barn on the farm of A. J. Danielson at Hallie today. Danielson was unable to get the cows out, but the dog went in and drove them, one by one, from their stalls.

Bolshevik Destroy Shrines.  
BOMBAY, Feb. 2.—It is reported the Bolsheviks have destroyed all the shrines in the city of Bombay, Asia, except the chief shrine and murdered or imprisoned the leading officials and citizens.

### WIDOW SUES PALMER AND CAMINETTI.

Seeks \$350,000 Damages for Arrest of Husband as Red Suspect.  
(BY A. P. NIGHT WIRE.)  
WASHINGTON, Feb. 2.—Suit for \$350,000 damages against Atty.-Gen. Palmer and Anthony Caminetti, Commissioner-General of Immigration, was filed in the District Supreme Court today in behalf of Mrs. Mary Marcinak of Passaic, N. J.

The case arose out of the arrest and subsequent death of her husband, Mike Marcinak, taken into custody during the Red raids in January, 1920. It was alleged that Marcinak was not a member of the Communist party or any other association opposed to organized government, and that his death had left his wife with two small children to support.

### AVIATOR TO ATTEMPT LONG-DISTANCE TRIP.

(BY A. P. NIGHT WIRE.)  
DOUGLAS (Ariz.) Feb. 2.—It was announced at the Army flying field here today that Lieut. Alexander Pearson, Jr., of the Twelfth Aero Squadron, would leave February 7 to fly to Cabo Beach, Fla., where he is scheduled to hop out the coast on a transcontinental flight to San Diego.

### FRAUDS IN RICE ALLEGED.

Mills Are Accused by Committee That Investigates Price Drop.  
(BY A. P. NIGHT WIRE.)  
SACRAMENTO, Feb. 2.—Manipulation of the 1920 rice crop of the Sacramento valley, which resulted in losses approximating \$1,500,000 and brought immense profits to the manipulators, was charged here today by a special investigating committee of the Pacific Rice Growers' Association through statements by two members of the committee—C. L. Doherty of Willows and S. J. Hankins of San Francisco.

The millers, it was alleged, had demoralized the market by selling on the open market at least 100,000 sacks of rice, which had been delivered to them for milling and storage. Their dealings, it was charged, affected fully 90 per cent of the growers of the valley, most of whom are members of the growers' association.

SUSPICION AROUSED.  
Suspicion was aroused, the committee said, over the recent demoralized state of the market, the absence of sales by growers. Prices dropped more than 100 per cent. Appointment of the special committee and the consequent investigation.

### FINISH DYNAMITE WITH SIZZLING FUSE ATTACHED; FIFTY HAVE NARROW ESCAPE FROM DEATH

ABERDEEN (Wash.) Feb. 2.—An attempt to dynamite the American Legion building here shortly after 7 o'clock tonight was frustrated by Henry G. Lancaster, a Legionnaire, who discovered the smoking fuse of a package of dynamite planted beneath a corner of the building and stamped it out. The package was found to contain twenty-eight sticks of dynamite, each with a percussion cap attached.

The dynamite was wrapped in a copy of a Montezuma (Wash.) newspaper and had a ten-foot length of fuse attached.

Lancaster was passing the Legion building when he saw a man crawling away from it.

"What's the matter," asked Lancaster. "Nothing," the man replied and fled.

Lancaster's suspicions were aroused and his investigation brought to light the package, which he turned over to the police after extinguishing the fuse.

FIFTY ESCAPE DEATH.  
There were about fifty members of the American Legion in the building at the time, and all of them escaped death when the dynamite exploded in an aftermath of the Centralia Armistice Day murders when four former service men were shot down on the explosion.

Members of the Legion of Aberdeen and nearby towns are assisting the police in the search for the bomber. It is believed here that the attempt in an aftermath of the Centralia Armistice Day murders when four former service men were shot down on the explosion.

The dynamite was wrapped in a copy of a Montezuma (Wash.) newspaper and had a ten-foot length of fuse attached.

### RED IDEAS DERLIN CASH FOR IRISH. D IS WASTED

Soviets Seeking a Extravagance Seen in Budgets.  
Hold in Erin.  
Declare it Would be Strong for Communism but for Moscow Mistake.

(BY GEORGE SELDEK.)  
(BY CABLE—EXCLUSIVE DISPATCH.)  
BERLIN, Feb. 2.—I have just obtained copies of the official reports made to the Bolshevik propaganda congress which met recently at Bremen.

These documents narrate the progress that Communism claims to have made all over Europe and especially in England, France and Ireland.

The documents copied at my direction were gathered at the Soviet headquarters here and sent to Moscow by courier. I am informed that a copy was also made for the American State Department.

On the most interesting sections deals with Ireland, where the people are declared to be especially susceptible to revolutionary teachings. It depicts the fact that lack of money prevented a campaign for Bolshevism there, and the most opportune time would have been when the British burned parts of the city of Cork.

HEAD OF PROPAGANDA.  
The following heads of the European propaganda division of the Soviet government participated in the Bolshevik congress: Julius Facher, M. Antonowicz and M. Mueller for France and England; M. Rudan for Spain and Portugal; M. Alexandrov for the Balkans; M. Guttman for Czechoslovakia; M. Horenberg for Denmark and M. Lange for Germany.

Julius Facher opened the conference by reading the following report made by the agent to France and England.

"From the viewpoint of the Third International the situation of the proletarian masses in England is desperate. The workers are interested in Russia and sympathize with the development of Communism but they will not help and with the exception of a few hundred from hunger and starvation, the Soviet government forced the peasants to give their last provisions and rationed the consumption of the peasants. This created the worst feeling among the latter. Everything exceeding this rationed quantity had to be delivered at a fixed price at the nearest railway station."

MONEY AS SOUVENIR.  
"The things most urgently required are linen, clothes, yarn, needles, tea, sugar, salt, soap, cooking utensils, etc. The report adds that made for Dublin Castle are now brought daily by airplane."

MAGISTRATE KILLED; SON IS WOUNDED.  
Irish Cable and Telegraph Wires Severed; Airplanes Carry Mails.

(BY CABLE AND ASSOCIATED PRESS.)  
DUBLIN, Feb. 2.—Dublin Castle reports that today near Dunlavin, Robert Dixon, a magistrate, was shot dead and his son, James, seriously wounded while the railway was being repaired.

The submarine cable from Burtonport to Arranmore Island, County Donegal, was cut and the telegraph wires in the Dunlavin district were severed six times in January. The report adds that made for Dublin Castle are now brought daily by airplane.

(Continued on Second Page.)

# REPUBLICANS REDEEM PLEDGE.

Harding Slogan "Less Government in Business."

Delay Action on Bills Centralizing Power.

Calder Measure Among Those Under Ban.

BY ROBERT B. ARMSTRONG.

WASHINGTON, Feb. 2.—"What the country needs is less government in business and more business in government."

This phrase was one of the business policy "markers" set up by President-elect Harding. It has been counted a pledge against continuation of the trend toward more governmental interference with private business and the encroachment of Federal authority on the States, a trend that has marked the Wilson administration and to which Republicans have applied the term "Socialism."

Now it looks as though the first test of good faith put to the Republican party since the campaign is coming on this issue. It involves three important pieces of legislation now pending before Congress, the so-called "Calder bills," which are designed to centralize increased powers of educational control in the Federal government, and to which Republicans have applied the term "Socialism."

GROWS MORE REMOTE.

With only twenty-five remaining legislative days in this session it appears that the Republican Congress will be able to make good the "less government in business" pledge without the embarrassment of an admission to that effect. In other words, with each succeeding day the chances that any of these three measures will become law before March 4 grows more remote.

SMITH-TOWNER BILL.

The Smith-Towner bill to appropriate \$150,000,000 for co-operative education, the bill to appropriate \$100,000,000 for the Federal government and the States in even-odd years so far as passage at this session is concerned.

As finally reported by the joint committee the measure is, to be sure, lacking in many of the "centralizing" faults that characterized the original bill. However, Congressman Fess of Ohio, most active proponent of the bill on the Joint committee, said today that action on it before March 4 is impossible without a special rule for its preferential consideration. "I am not at all going to ask for such a rule for there's too much other important legislation pending," said Fess.

SENTIMENT AROUSED.

The Calder bill has been called by influential Senators "the worst piece of legislation in years." Yet if it ever came to a vote in the Senate these same Senators would probably vote for it. The reason for this anomaly is this: Sentiment throughout the country and particularly in New England is aroused against the "coal barons."

Any legislation that purports to remedy the troubles of the coal consumer—and these troubles have not been imaginary—would gain popular approval. Hence, the bill, though presented by the Calder bill, and the likelihood that in some manner it will be sidetracked before March 4, even though the problem of regulating the coal industry will remain as an unavoidable task for the next administration.

SUGAR IS AT LOWEST PRICE IN TWO YEARS.

NEW YORK, Feb. 2.—The lowest prices recorded in more than two years were established in the raw sugar market today, when Cuban sugar at 5 1/2 cents, and Central American at 4 1/2 cents for centrifugal.

# ISSUES WARNING TO PACIFISTS.

(Continued from First Page.)

army at this time, the general said, because she is "standing on guard in Europe today."

Great Britain, he added, occupied a similar position at sea.

An agreement between Great Britain and the United States must form the basis for any permanent disarmament policy, Gen. Pershing continued, but Japan, France, and Italy should subscribe.

RECEIVE NAVAL BILL.

Preceding the army bill debate the House received from the Appropriations Committee the annual naval bill with its provisions for continuing work on seventeen superdreadnaughts and battle cruisers and other craft.

Nearly half a billion dollars will be required to complete the naval building program embarked upon in 1916. The committee said that, while the cost of completing the program was originally placed at \$444,000,000, increased cost of materials and labor probably would increase the total to \$719,921,000, of which \$333,270,000 has been appropriated.

The bill reported today, which carries a total of \$395,000,000, provides \$90,000,000 for continuing construction next year.

The committee said the accompanying report stated: "Will allow the bill to be presented during the coming fiscal year about as rapidly as it has been possible to proceed thus far in the current fiscal year."

The 1916 program authorized 166 ships; many of these have been completed, but seventeen battleships and battle cruisers and a number of auxiliaries still are under construction.

The bill today carried \$37,775,139.77 less than the amount appropriated a year ago, and \$24,011,377.74 less than the amount requested by the Navy Department.

CUT MARINE CORPS.

Besides the cut in the enlisted personnel of the Navy from 143,000 to 100,000, heretofore announced, the commission also cut the Marine Corps from 27,400 to 20,000 enlisted men.

A force of 100,000 men, the commission said, would be sufficient to keep at least 324 vessels in operation, or thirty-two more than were in the entire Navy in 1916.

MRS. HARDING BARS SOCIAL INVITATIONS.

NEW YORK, Feb. 2.—Invitations to many social gatherings failed to draw Mrs. W. G. Harding away from her shopping today.

Her companions said she would neither call on friends nor be visited during her stay. Tonight the visitor slipped away to visit a theater.

CANADIANS LEAVE JOBS.

FORT WILLIAM (Ont.), Feb. 2.—Between 700 and 800 men employed by the Canadian Car and Foundry Company today walked out after the company's announcement of a 10 per cent reduction in piece rates.

# ARMY PAY-CAR HOLD-UP FOILED.

Three Bay City Bandits' Attempt Unsuccessful.

Major Blackjacked on the Head by One Robber.

Two Suspects Caught; One Confesses, Say Police.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Feb. 2.—An unsuccessful attempt of three automobile bandits to rob an army pay car, containing \$17,000, here today, was marked by a wild pursuit of the bandit's machine by the other car, the slugging with a blackjack of the driver, and the capture of two men suspected of participation in the thwarted hold-up. One of the men, giving the name of Gerald Beale, who said he was chief forster at the Presidio, was said by the police to have confessed aid in the attempt. The other man, Arthur Blair, soldier, denied all knowledge of the occurrence.

JUMP ON STEPS.

As the pay car was approaching the Presidio, the three bandits leaped from their machine and jumped on the running board of the Army machine. When resisted, one of the men put a pistol into Maj. Stuart's face and pulled the trigger, but the cartridges failed to explode.

He struck the major with a blackjack before the three men were thrown off the car by the driver. The bandits then fled in their machine, pursued by the Army car. After a race of a mile a hole was shot in a tire of the fleeing machine. The bandits abandoned the car and attempted to escape.

Beale and Blair were apprehended a few moments later by the police. Beale made a statement that he tried to rob the pay car, but was thrown out of a hole caused by ramming the car.

JUDGE ON TRIAL.

Police Judge Joseph Oppenheim was summoned before the State Supreme Court here today to show cause why he should not be disqualified from the alleged commission of three separate acts of corruption, which involved the acceptance of \$100 in bribes, in his term of office. The disbarment petition was filed by the San Francisco Bar Association, which is acting as prosecutor.

Judge Oppenheim is charged by Vincent Riccardi, an attorney with manipulating the manslaughter case of George Imperiale in a manner that would compel the selection of Riccardi as the defendant's attorney, and of accepting the bribe of \$100 from the defendant's attorney to murder case of Leandra Yausel and a statutory offense against G. Paele. He has denied all the charges.

A hearing on a petition of the association to disbar Police Judge J. J. Sullivan as an alleged bribe-taker was concluded.

NEGRO LYNCHED.

PLAQUEMINE (La.), Feb. 2.—George Werner, a negro, who shot and dangerously wounded Numa Tierout, a rice planter, Monday, was taken from jail at Port Allen last night by a mob and hanged to a tree post near the scene of the shooting.

PALESTINE (Tex.) Feb. 2.—Mrs. Gladys Hutchinson, charged with killing her husband charged with murder in 1919, was given a two-year suspended sentence here today. The jury returned a verdict of manslaughter.

SACRAMENTO, Feb. 2.—C. A. Larkin, a Folsom prison guard, left here today for Portland, Ore., with regulation papers for Ed Nolan, an Alameda-county man, who escaped from a prison road gang in 1917. Nolan was serving an eight-year sentence for grand larceny.

# IRELAND LIKES IDEAS OF REDS.

(Continued from First Page.)

by its bourgeois. The situation is better in Scotland, Wales and Ireland. In Edinburgh Communist groups have shown great organizing capacity. Work is being done in the industrial centers where the Communists are constantly fighting the trade unions.

"Ireland should become a strong foundation for Communism on account of the readiness with which revolutionary doctrines can be instilled into the Irish masses. Ireland would be a strong stronghold for Moscow in its treatment of the Sinn Fein from the beginning and the reverse due to factiousness (of a sort) which displeased the Irish leaders and turned them against all our enterprises."

The strongest of our British organizations is in South Wales, especially our Cardiff group which owns a printing plant for the publication of books and pamphlets and has strong connections with a large press enabling it to carry on propaganda. SEAMEN ARE ORGANIZED.

"Next comes Plymouth, where the British seamen are organized. Plymouth also links between British, French and American seamen. Manchester is the mecca for the rest of the proletarian in England."

"Our expenses for the organization of propaganda centers in England are about \$115,000, not including the expenses of the Communist delegation at London. I have told the committee at Moscow through M. Krasin that it will be necessary to double this amount. My plea was vain. I propose that this conference should on the ground of an additional sum of money for work in England."

WANT PRINTING PLANTS.

They have seventy-nine Communist organizations in England and twenty-six other districts we are carrying on agitation. I recommend that each district own a printing plant. Although there are not more than 20,000 active members there are many more in the ranks. We have 1219 agents, most of whom receive money daily. We have 172 first-class agents.

"We had the greatest opportunity for enlarging agitation operations in Ireland during the recent insurrection and during the time when Corry was burned, but we did not have money enough to stand the extra expenses."

# REDS THWARTED BY PEASANTS.

(Continued from First Page.)

and cups, machines, tools, iron, glass, dyes and remedies. If the Soviet government were in a position to supply these things to them against their products. But Soviet money is of no value. In Germany you receive 60 marks for 100 Czech rubles and 15 marks for 100 Karsenky rubles and—nothing for Soviet rubles. We German prisoners may keep the money we receive from the Soviet government for our work as a 'souvenir'."

"In February, 1920, the Soviet government used the same money as Koichak did one year before. It wanted to withdraw the Czech and Karsenky money from circulation, to buy good from abroad. But the peasants did not give up their bank money. In our joint stock bank, as well as in other banks, we had a few hundred Czech rubles were changed, ruble by ruble. Peasants who possess money keep it, hoping for better times."

PUZZLING QUESTION.

"With what will the Soviet government pay for goods to be bought abroad? Actuals are out of the reserves made in former years. And actuals, as far as they have not yet become useful, are only railway stations, but little of them reaching the hungry towns, for railway and traffic conditions are entirely abandoned. Here the ladies of the Czech government was destroyed by the revolution."

"It is the traffic problem that will cause the downfall of the Soviet government and only by the aid of foreign money can change be brought about in this direction."

Describing life in Petrograd and Moscow, Mr. Treppin says: "A city where the revolution is caused by the closed shops. It is partly possible to imagine that the city is empty. Formerly, 2,000,000 inhabitants all the shops are closed. Of course, they are empty, most of them having been sacked. It is simply depressing."

"However, I will be quite honest: some jewelry, perfumery and ladies' hats shops are open, also some half-dresser shops. Here the ladies of the 'bourgeoisie of today' purchase what they require. If you see the thousands of empty show windows and closed shops you get the right impression of the deplorable condition of the country."

"If the banks are closed, all the safes have been confiscated. The government nominates managers and administration officials. Factories manufacturing goods of the same kind were divided in groups and report to a general board of managers."

These general boards of managers in turn are laid together and report to the board of economies or to the Ministry of Labor. From here salaries and wages are paid through the banks. Payments for goods are to be made directly to the Ministry of Finance and this before the receipt of the goods.

# APPROVAL WON BY COMMISSION.

(Continued from First Page.)

Route, the Central California Gas Company, the Humboldt Traction Company, the Peninsula Electric Railway and the Pacific Electric Company.

Each one of the foregoing companies, Stuehmer declared, had been refused rate increases high enough to put them on a successful financial plane because the commission believed there was too much water in the stock, engineering or other that were costly, or for some other mistake.

"The commission takes the actual value of the property used by a utility in serving its patrons and allows it a return on that investment," said Stuehmer, "and if it can make its bond interest and stock dividends match that return, the utility is lucky. If it can't, the utility is out of luck. The commission never has guaranteed returns to stockholders."

Wedding in Diplomatic Circles.

LONDON, Feb. 2.—Mr. P. C. Naro, secretary of the Rumanian Legation in London, and Rose, daughter of Miguel de Covarrubias, former Mexican Minister to Great Britain, were married here today.

A Judicial Inquiry.

A well-known traveling man who visits the drug trade says he has often heard druggists ask a customer who wished to buy a cough medicine whether it was for a child or an adult and, if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is no least danger in giving it and for colds, croup and whooping cough it is unsurpassed.—(Advertisement.)

# STANDARD OIL WAGES CUT.

Employees of New Jersey Corporation Agree to Ten Per Cent Reduction.

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 2.—Employees at all the refineries of the Standard Oil Company of New Jersey have voluntarily accepted a reduction of one-half of their cost-of-living bonus, effective February 15. It was announced here today at the general offices of the company. The reduction is equivalent to 10 per cent of their wages.

This reduction, brought about through a series of conferences with representatives of the employees, it was stated, affects about 12,000 workers and is tantamount to the execution of agreement between the company and its employees entered into last August.

NO CUT ON COAST.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Feb. 2.—Voluntary reductions of wages among the 13,000 workers in the Standard Oil Company of California on the Pacific Coast are not expected as the wage awards have differed from those in New Jersey and elsewhere, company officials said today. Unlike the New Jersey arrangement there were no cost of living bonuses established here, the rising prices being met by regular and permanent wage increases.

TULSA, Feb. 1.—Announcement was made here today by the Sinclair Oil and Gas Company that the wage scale in effect in April, 1918, was resumed February 1. This means a reduction in all wages of approximately 15 per cent, it was said. About 310 office employees here and hundreds of field workers throughout the Midcontinent field are affected.

Sugar Drops in Bay City.

SAN FRANCISCO, Feb. 2.—Refined cane sugar was reduced from \$7.55 to \$7.25 a hundredweight at local refineries today, marking the lowest level since October, 1917.

# GERMAN MONEY BEING WASTED.

(Continued from First Page.)

mined not to reopen the question. Germany may refuse to negotiate the treaty but she will not be allowed to say on what basis she will or will not negotiate, since the discussion concerns an undertaking to which Germany is bound. If she refuses execution, the Allies will notify Berlin of the four penalties.

The Brussels conference set for February 7 will, so far as information is available here, occur as planned.

RED OFFENSIVE.

A possible Bolshevik offensive in the early spring against Poland and other states near Russia will be the chief question discussed by the heads of the Polish and French governments at their conference, it was learned today.

The conference will begin tomorrow and last three days. President Pilsudski of Poland, with Polish officials, will be here. President Millerand, Premier Briand, Marshal Foch and other French officials are to take part.

CONFERENCE AIMS.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, Feb. 2.—The conference called by the Supreme Council for London February 28, to which the Germans will be invited will not be for the purpose of pronouncing an irrevocable sentence regarding reparations, from which the Germans will not be able to appeal. It was authoritatively stated here today. The conference, rather, will be designed to produce a declaration of the principles of Germany's indebtedness.

It is pointed out that the work of the Paris conference on reparations was that of making a solemn declaration of Germany's indebtedness. That declaration, it is asserted, will in the main be closely adhered to at the London conference, but the Allies and Germany can adjust the method and time of payments.

MAY ALTER TAX.

It is even probable, it is stated, that the 12 per cent tax on Germany's exports provided for in the Paris terms may be altered, although the principle of the right to impose such a tax will be retained. The export tax measure, it is asserted, was strictly a French proposal, advanced to guarantee the fullest protection from future German aggression.

Invitations to Germany to attend the conference soon will be dispatched, and British officials do not even consider the possibility of Germany refusing to attend. They declare it will be only worse for Germany if she declines.

There will be two conferences in London. The first will begin February 21, when the Supreme Council will consider the near eastern situation, and the second when reparations will be taken up.

SEIZE GERMAN GUNS.

(BY CABLE AND ASSOCIATED PRESS.)

WARSAW, Feb. 2.—The shipment of arms and ammunition being sent from Germany into the Silesian plebiscite area, seized by the inter-allied police Monday, according to newspaper dispatches, is said to have included 500 rifles of the 1918 model, made in Germany last year, in alleged violation of the peace treaty.

There were also 100,000 cartridges, 250 hand grenades and 3000 gas bombs, the messages declare.

NEGOTIATIONS END.

(BY CABLE AND ASSOCIATED PRESS.)

KOVNO (Lithuania) Feb. 1.—Negotiations between representatives of the Lithuanian and Polish governments at Warsaw concerning the plebiscite in the Vilna and Grodno districts have been broken off, said a Warsaw dispatch today.

The Polish refused to consider proposals aiming at a direct settlement of the territorial dispute, which has been left to the League of Nations. The Lithuanian delegation is returning.

Storm Destroys Timber.

(BY A. P. DAY WIRE.)

VERNONIA (Or.) Feb. 1.—Timber estimated at fifty million feet was blown down in this section by the terrific windstorm which swept through here Sunday, according to estimates of timber men.

PRICE, THIRTY-FIVE CENTS.

(Copyright by Chamberlain Medicine Co., U.S.A.)

**Rachmaninoff himself chose the Victor**

Rachmaninoff knows music. Knows how to compose it, how to play it—and how it should be reproduced. It is significant that the great composer-pianist in the light of previous experience has chosen to associate himself with the other famous artists of the world who make records for the Victor.

Hear Rachmaninoff's Victor Record of Mendelssohn's "Spinning Song" played on the Victrola and you hear the great pianist exactly as he wishes you to hear his own work.

Victrolas \$25 to \$1500. New Victor Records demonstrated at all dealers on the 1st of each month.

## Mahogany and Cane Sets In the Clearance

Because they are handsome in appearance, delightfully comfortable, easy to care for and durable to a marked degree, these mahogany and cane living room pieces enjoy a vogue that promises to be lasting.

A recent carload shipment from one of the largest factories devoted to their production enables us to offer a creditable assortment at prices that are considerably lower because of the general reductions incident to our Annual Clearance.

Under our low overhead, cash system of pricing, the values are really extraordinary, as comparison will prove.

### The Set Pictured

—consisting of davenport, rocker and chair, in solid mahogany and cane with spring edge, loose cushion seat and three back pillows in a neutral temporary covering, is a wonderful value at the sale price of \$357.50.

### Three Piece Set for \$291.50

Finish, construction and upholstery of a high order. Davenport, rocker and chair in handsome velour—underpriced considerably in the Clearance at \$291.50.

### The Same Set in Velour

Exactly as described above, but with upholstery in handsome brocaded velour that will harmonize nicely with most any color scheme. One of the finest solid mahogany sets we show in the Clearance, for \$514.00.

### Three Piece Set for \$348.00

Another high-class set, consisting of davenport, rocker and chair with cushions in handsome velour—a set that anyone would be proud to own. Offered in the Annual Clearance Sale at the comparatively low reduced price of \$348.00.

# SO WEAK SO NERVOUS

How Mysterious This Woman Was  
Until She Took Lydia E. Pinkham's Vegetable Compound

Toombsboro, Ga.—"I suffered terribly with headache and dizziness all the time, was so weak and nervous I didn't know what to do, and could not do my work. My trouble was deficient and irregular periods. I read in the paper what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. I got good results from its use so that I am now able to do my work. I recommend your Vegetable Compound to my friends who have troubles similar to mine and you may use these facts as a testimonial."—Mrs. C. F. Phillips, Toombsboro, Ga.

Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that nine-tenths of a woman's system. Mrs. Phillips' letter proves that no other remedy is so successful as Lydia E. Pinkham's Vegetable Compound.

# LITERARY LADIES STORM AND RAGE

Refuse to be Known as Just  
Plain Mrs. So and So.

But Tears and Threats Fail to  
Move Government.

State Department Makes 'Em  
Use Hubby's Name.

BY HARRY CARR.

NEW YORK, Feb. 2.—You will remember the days when a bridegroom began calling his blushing spouse "my old woman" on the second day after the wedding. Well, it appears that those days have gone by. What is worrying the blushing brides now is that they have to be called "Mrs. So-and-so" and take the name of the brute at all.

Especially does it worry Mrs. Heywood Brown, the wife of the distinguished dramatic critic of the New York Tribune. And her worries have spread to other literary ladies.

In the world of letters, Mrs. Heywood Brown is Ruth Hale. Recently she asked the government for a passport to go to Europe and gave her maiden name.

The government refused to issue the passport to her because it was not her legal name.

Whereupon the storm broke. Literary ladies all over New York have fallen upon the offending State Department by horse and by foot. They pointed out to a presumably scared but abiding passport bureau that a woman does not evaporate and become recondensed into the personality of her husband when she says her promises at the altar. They pointed out that this is a time of advancement and progress and that the calendar has to pant to keep up; and that a modern marriage is a partnership between two partners, not a chemical absorption. The New York Tribune rushed to the rescue and finally a permit was issued to Miss Hale in her own name with the added phrase of "wife of Heywood Brown."

There is, in New York, an organization of women appointed by Providence or somebody, on purpose to attend to such outrages. And so "the woman pays" club is "rescuing" about it and calling upon high heaven to avenge them and her and all the other hero who have to hide the light of their fame as "Mrs. Somebody-or-other."

It is the contention of the club that a woman who has won fame in her own right should not be obliged to shut down upon her divine glowing light the club hamper of "Mrs." At a club meeting the other day

where they debated the Ruth Hale outrage, they cited the case of Crystal Eastman, who got into a very serious predicament in Budapest. She was obliged to take out passports under her married name—Mrs. Walter Fuller. When she got over there, she naturally used her professional writing name as a matter of course. Whereupon the Hungarian government came swooping down upon her, demanding to know why she was traveling as Mrs. Walter Fuller if her name was Crystal Eastman and there were all kinds of a shindy and serious complications.

ETHEL WEEPS IN VAIN.  
Ethel Barrymore on the occasion of her last trip to Europe almost tore the roof off the customhouse because they insisted that she should call as "Mrs. Colt" instead of Ethel Barrymore. But as Mrs. Colt she went. The department declined to compromise the case.

At this club meeting, which was held behind closed doors, Eve Unsell related also the outrage of having to travel under her married name of "Blackie" and Lucy Hufaker told the girls how they sprung her married name of "Goodman" on her.

Even the lovely Mary Pickford had to be Mrs. Douglas Fairbanks when she took out the passport. They carry this cynosure so far in the cinema and on the stage that even scenario writers and research young ladies pose primed as "Miss Jones" with the secret consciousness of the old man and the kids at home.

In the case of these theatrical marriages many of them are for so brief a spell of bliss that no doubt it scarcely seems worth while to change the visiting cards. The theory of actresses who decline to be "Mrs." is that every young man in the audience views every young lady on the stage as a potential sweetheart and she is spoiled for his delinquency if she is a "Mrs." This scarcely seems to apply to literary ladies.

But anyhow the "the woman pays" club is duly excited about it.

# HUGE ITALIAN BLIMP BOUGHT BY AMERICA.

BY A. P. NIGHT WIRE.

WASHINGTON, Feb. 2.—Purchase of the Italian blimp airship Roma, believed to be the largest semirigid aircraft in the world, for approximately \$200,000, was announced today by the War Department. It probably would cost \$1,250,000 to duplicate the ship, the statement said.

The Roma is of 1,200,000 cubic feet capacity, 410 feet long, 52 feet wide and 88½ feet high, equipped with six twelve-cylinder engines of 400 horsepower each, an estimated speed of eighty miles an hour and a cruising radius at full speed of 3300 miles and at cruising speed of 8000 miles. Max. John G. Thorne, who ordered to Italy with an air service detachment to bring the Roma to America.

# WILL FINANCE MILK EXPORTS.

War Finance Corporation to  
Make Big Loan.

First Approved Since Body  
Has Been Revived.

Product Comes from East and  
Middle West.

BY A. P. NIGHT WIRE.

WASHINGTON, Feb. 2.—Preliminary approval of a loan of \$10,000,000 to a group of American banks to finance the exportation of condensed milk and similar products to Great Britain and Europe was announced today by the War Finance Corporation. This is the first application for a loan approved by the corporation since its revival last month.

The milk products, it was stated, will come from the Eastern and Middle Western States and will be used for the purpose of feeding the British and French armies.

ARRANGE BOND ISSUE.  
Announcement of a bond issue will be made shortly, officials of the corporation said, and work had already begun upon the details for raising the necessary funds for making advances to finance exports.

Later, Senator Lodge sought and failed to obtain immediate consideration by the Senate of the resolution relating to the treaty of information as to foreign loans.

# LOAN TO SIBERIA.

MEANWHILE, Assistant Secretary Kelley of the treasury, in charge of foreign loans, before the Judiciary Committee, was asked by Senator Reed to submit all correspondence relating to the subject.

Mr. Kelley had told of a loan of \$25,000 to Liberia had a treasury credit of \$5,000,000. Senator Reed and Senator Smith, Democrat, Georgia, criticized a credit of \$25,000, established for Czechoslovakia after loans to that country had been made aggregating \$41,246,000.

# DEMOCRATS PLANNING FOR REHABILITATION.

COMMITTEE TO DISCUSS REOR-  
GANIZATION OF DISRUPT-  
ED PARTY.

BY A. P. NIGHT WIRE.

WASHINGTON, Feb. 2.—George White, chairman of the Democratic National Committee, today appointed an executive committee of the National Committee and called it to meet in Washington February 17 to obtain its "advice and counsel" in the reorganization of the party's machinery.

The executive committee is composed of sixteen members, as follows: T. T. Sanders, Alabama; Homer S. Cummings, Connecticut; Julia G. Saunders, Colorado; Miss Julia B. Landers, Indiana; Mrs. Campbell Cantrell, Kentucky; J. L. Brice, Maryland; William F. Connolly, Michigan; J. Bruce Kremer, Montana; Norman E. Mack, New York; Mrs. E. H. Pike, Ohio; Mrs. D. A. McDougal, Oklahoma; Mrs. Rose Hedlin, Oregon; Joseph F. Guip, Pennsylvania; Currier Hull, Tennessee; Senator Carter Glass, Virginia; and Angus M. McLean, North Carolina.

# INTERNED GERMANS TO BE SENT HOME.

WASHINGTON, Feb. 2.—Permis-

sion has been given by the American government for the transfer through the United States of about fifty German officers and seamen who have been interned at Guaymas, Mex., since the beginning of the World War, and whose repatriation has been arranged by the German Ministry to Mexico. The Germans will enter the United States at New Orleans, Ariz., and will go to New York, from which port they probably will sail for Germany February 24 on the steamer Manchuria.

# WIFE WOULDN'T SPEAK.

Husband Gets Divorce Decree After  
Fruitless Trials.

Harry G. Rucker, who was granted a divorce from Iry S. Rucker in Judge Summerfield's court yesterday on his third attempt to gain marital freedom, offered in evidence a letter he wrote to Mrs. Rucker. In part it read:

"I can't believe that you would do anything to keep anyone, especially your own husband, from being a better man. I have been trying to write this letter for a long time, but never could pick up courage to say never would speak to me when I saw you anywhere."

# Itching PILES

PAZO OINTMENT instantly Relieves ITCHING PILES and you can get restful sleep after the first application.

All druggists are authorized to refund the money if PAZO OINTMENT fails to cure any case of ITCHING, BLEEDING, or PROTRUDING PILES. Course of treatment in 6 days, the worst cases in 14 days.

It is guaranteed by Paris Medicine Co., St. Louis, Mo., Manufacturers of the world-famous Grove's Laxative Broom Quinine Tablets.

What about the Motor Industry?

Has it reached the saturation point? Will motor sales come back? What is the present status of different companies?

All these questions are covered in detail in our current Motor Review, which will be mailed to anyone free upon request.

WATCH HUNTINGTON BEACH

Remember, that according to my survey the oil streak in this field is very narrow. The widest point being at Standard discovery wells No. 1 and 2, where it has a width of about 650 feet, while at Bolsa Chica No. 1, located nearly a mile northwest, it has a width of about 200 feet, and at Vista Del Mar, located over one mile and a half southeast, it has a width of about 300 feet.

At this time there are no wells outside of the Standard drilling on the oil streak within a radius of half a mile from the discovery wells and not more than two wells now drilling in the entire field, outside of the Standard, that will produce oil in paying quantities.

A few weeks will prove who is correct and whether or not this field will be a second Burburnett.

WILLIAM E. STEPHENS

Share in the Profits of Sunset Pier

THE NEW \$1,000,000 AMUSEMENT RESORT NOW BUILDING AT VENICE

WORLD'S FINEST OCEAN PIER

This is the first time the public has been given an opportunity to participate in the profits of an amusement pier at Venice. You know that these profits are enormous. You have seen the vast crowds on the ocean front and you know they were there to spend money and enjoy themselves.

Open the Year 'Round

Sunset Pier is scheduled to open next June and will be kept open the year 'round. The great crowds you see at Venice in Summer will be duplicated and increased by the winter tourists that come to Los Angeles.

Your Opportunity

You can become a part owner in this gigantic enterprise. You cannot afford to let this opportunity pass because it is not likely that it ever will knock at your door again. You can own as much or as little as you like.

Come in and let us show you how.

WILL YOU

If you haven't already seen Bandini—

WILL YOU—see Bandini now just before Well No. 1 breaks into the rich gusher oil sands?

or, WILL YOU—wait until the Bandini District is covered with derricks painted black by great gushers when the great money-making possibilities will have passed?

WILL YOU—buy Bandini today at \$1.00 per share before the rich gusher oil sands are reached?

or, WILL YOU—wait until the BANDINI PETROLEUM COMPANY has a big production from its well No. 1 and pay \$5.00 per share or more for the stock?

WILL YOU—buy Bandini at \$1.00 and have some for sale to the other fellow at \$5.00, or more?

Or, WILL YOU—be fighting to buy stock at \$5.00 per share, or more, later?

See Bandini at ONCE, FREE AUTO will leave the northwest corner of Sixth and Hill Streets at 1:00 o'clock, Thursday and Saturday afternoons. Take this trip.

## FAVORS TARIFF SHIPPING BILL

Elect Pledges Aid in Prosperity Program.

Plan to Put Nation on Commercial Map.

Immigration Station is Needed at Harbor.

At the close of the session of the House of Representatives, the tariff bill was passed.

The bill, which was introduced by Mr. Clegg, of California, provides for the establishment of a tariff commission.

The commission is to be composed of three members, one of whom shall be a representative of the shipping industry.

The bill also provides for the establishment of an immigration station at the harbor.

The station is to be under the supervision of the customs service.

The bill also provides for the establishment of a tariff commission.

The commission is to be composed of three members, one of whom shall be a representative of the shipping industry.

## CRISIS IN PEETE CASE TO BE REACHED TODAY.

Woman Accused of Denton Murder May Take Stand Herself; Eight More Witnesses for Defense.

The crisis in Mrs. Lofe L. Peete's trial for life will be reached in Judge Willis's court today. It will come when Public Defender Aggeler and Deputies Frederic H. Vercoe and Robert H. Scott are asked to decide whether Mrs. Peete will take the stand and tell her own version of the circumstances and the web of evidence with which the State is seeking to convict her of the murder of Jacob C. Denton.

That Mrs. Peete is certain to tell her story from the witness chair is the belief of her friends and persons in close touch with the progress of the case and the plans of the defense counsel. She is known to be determined to take the stand, but a long conference last night between Mrs. Peete and her attorneys failed to settle the matter so far as any official announcement is concerned.

"We cannot decide this matter until our last witness is through," was the only comment of Mr. Aggeler. Neither he nor his deputies would deny that their decision regarding Mrs. Peete's appearance on the stand will be influenced by the testimony of the last witness.

The State has a strong array of rebuttal witnesses, who will begin their testimony immediately after the closing of the defense, which may come today.

The defense of Mrs. Lofe Louise Peete in the Denton murder case probably will be completed today. It was turned last night at the close of the day's testimony by twelve witnesses for the defense.

Fast presentation of evidence by Public Defender Aggeler, who speeded up even more when the defense suffered a severe setback late in the day by an adverse ruling of Judge Willis during the questioning of Mrs. Ida L. Gregory and her daughter, Maude, on a point which the defense has stressed during its preparation of its case. Twelve interrogatories dealing with this point—whether Mrs. Peete was physically able to lift, carry or drag a body of 200 pounds—will not be admitted, it was indicated by the ruling of the court on the oral testimony of the Gregorys.

The defense is clearly one of reasonable doubt and attack, and the point brought out by the prosecution. The defense contends that proof of Denton's death has not been established and asserts a Spanish woman did have influence in Denton's life, that Mrs. Peete had been acting on his orders and that she had his consent to use his automobile and at no time did she know of her husband's use of his name as Denton's wife or use his name.

EVIDENCE SUMMARIZED. A summary of the testimony of the twelve defense witnesses follows: Dwight C. Dale, deposition, gave data on which he last saw Denton as June 3. Mrs. Peete was in the automobile with him, Dale said, at that time.

Mrs. Bertie Collins feels reasonably sure that she saw Denton on June 3, the same time mentioned by Dale.

Mrs. L. H. Coy told of seeing a man she declares was Denton on May 29, that a "Spanish woman" came up and walked away with the man and that the witness saw him again on June 3 with his arm in a sling. Mrs. Coy did not know his name until almost four months later when she saw Denton's picture in the newspapers. She did not know him before May 29 and he did not introduce himself then.

Thomas L. Harris identified in a telegram from Mrs. Peete in which she said she would not close a deal for the Denton house until she saw Denton again. The prosecution then introduced a letter written about the middle of September in which Mrs. Peete told the witness that Mrs. Peete was in the house with Denton on June 3 and that she saw him with his arm in a sling. Mrs. Harris said she saw Denton on June 3 and that she saw him with his arm in a sling.

Mrs. Margaret MacLean told the jury she saw Jacob Charles Denton on the sands of Seal Beach on July 7. She did not previously know the man and never saw him since, but she readily identified pictures of Denton as being of the man she saw.

Frank Percey said he saw Denton with his arm in a sling late in May or early in June. The witness also believed, but refused to state definitely, that the tip of one of Denton's fingers was stiff.

E. G. Warner, laundry wagon driver, was met on May 11 at the Denton home by a woman, who he said was a Spanish woman. The woman told him to come back the following week.

Dick Wick Hall by deposition stated he saw Denton, either late in May or about June 4 or 5 with his arm in a sling. The witness testified, but Hall was not sure of the date. Hall also believed that one of Denton's fingers was missing.

W. R. Wyatt, night watchman, declared he had a key to the Denton home and Mrs. Peete told him to go through the house and see that everything was all right during her absence. He never went into the basement.

Mrs. Ida L. Gregory and Miss Maude Gregory said about five or six other newspaper reporters interviewed Mrs. Peete regarding the murder before Dean H. Dickson, Denver newspaper man, who testified for the prosecution, met her.

James Isaac, formerly employed by the Garrett & Co. undertaking establishment, was called to lay proper foundation for testimony which the defense hopes to introduce today through Earl Rogers, who investigated the Denton case soon after the body was found.

MIDNIGHT MEETING. Comedy of a new kind was injected into the case during the rambling testimony of Miss MacLean and Mrs. Cox. The latter said she knew it was Denton her

## Preparing for the Crucial Moment in the Murder Trial.

Mrs. Peete in Conference With Her Attorneys at the County Jail Last Night. Left to right, Deputy Public Defenders Robert H. Scott and Frederic H. Vercoe, Mrs. Peete and Public Defender William T. Aggeler.

## WANT REDS FROM EAST HERDED IN.

Citizens Ask Council to Back Police in Checking Up on Arrivals Here.

Representative citizens, headed by Harry Haldeman, E. P. Clark and William M. Garland, yesterday appeared before the City Council and urged that the police be given ample funds to check the activities of radical agitators, who are arriving in Los Angeles in large numbers from the East.

"These men," said Mr. Haldeman, "aim to bring about the overthrow of the government, and the situation created by their presence in the city must be met and checked."

The proposal being urged on the Council was the increase by \$10,000 a month of the secret service fund of the police department, which is now \$450 a month. Councilman Cresswell read from the reports of the expenditures of that fund and said that he was opposed to any additional money being spent for "stool pigeon" work.

The request for additional funds was referred to the Finance Committee, which will confer with the Board of Police Commissioners relative to the matter.

The Council that the addition to the fund will be spent for work in curbing criminal agitators.

## Hops from Auto, Slaps Girl and Then Speeds On

Saying that a strange woman had jumped out of an automobile on Alameda street near Glendale Boulevard yesterday evening, and after accusing her of sticking out her tongue provokingly had hit her in the face and then fled away in the machine, which was driven by two men, Miss Yelma Rousseau, 20, of 2416 Sobieski street, Edendale, yesterday furnished details of the incident.

The young woman told the police that she was walking with her mother when the car drove up to the curb. The strange woman jumped out of the car and said "What do you mean by sticking your tongue out at me?" according to Miss Rousseau and then struck her in the face with her fists.

She said she never saw either of the men nor the other woman before. Her mother got the supposed license number of the automobile and the detectives are hot on the trail of its owner.

## Property Sale is Planned for Wife's Support.

Three appraisers will be appointed to place a valuation on the personal property on the ranch of Ross E. Whitley, with a view to disposing of it and applying a portion of the proceeds to the support of Mrs. Whitley, who is suing for divorce.

James Isaac, formerly employed by the Garrett & Co. undertaking establishment, was called to lay proper foundation for testimony which the defense hopes to introduce today through Earl Rogers, who investigated the Denton case soon after the body was found.

MIDNIGHT MEETING. Comedy of a new kind was injected into the case during the rambling testimony of Miss MacLean and Mrs. Cox. The latter said she knew it was Denton her

## SHORT PLUNGE KILLS AVIATOR.

Lieut. Price in Fatal Slip at Riverside; Lieut. Sherrill at Death's Door.

RIVERSIDE, Feb. 2.—Unable to control his plane when the motor cut-out failed him, Lieut. Walter E. Price of this city, flying instructor at March Field, crashed to the ground at Seventh and Main streets last night when he ran into the street.

Lieut. Price died at the field hospital this afternoon, and Lieut. Sherrill, whose home is in Mauckport, Ind., is not expected to survive the night.

The two men were "taking" off when the engine trouble occurred, and the plane went into a side slip as Lieut. Price was attempting to turn and land on the field proper.

Lieut. Price, who resided in this city, leaves three small children and a widow, who started only two days ago for Des Moines, Iowa, to attend the funeral of her mother.

## SAY HE GOT ADVANCE TO FAKE LODGE.

Victims Declare Man Was to Have Initiated Them into Masonic Branch.

Using the names of several Los Angeles lodges of the Masonic Order as a means of obtaining money for asserted fake initiations into a reputed fictitious Masonic lodge is the charge against John Schwartz in a complaint issued yesterday by District Attorney Heinicke. Schwartz was arrested last night by Constable Standand and placed in the County Jail.

Schwartz is charged with obtaining money under false pretenses by representing to San J. Alberts and M. H. Kastleman, 1223 East Twenty-fifth street, that he is a member of a fictitious Masonic lodge.

"St. John's Lodge, Free and Accepted Masons," which, in turn, was associated with such local Masonic lodges as the Los Angeles Lodge, No. 42, Eastgate and Westgate lodges. He is also charged with asserting that membership in his supposed order would give visiting privileges in the other lodges, and with obtaining money from each of the complaining witnesses for supposed initiation fees.

## Attorneys Sue for Their Fee in Broome Case.

VENTURA, Feb. 2.—The latest phase in the sensational litigation involving the Broome estate, valued at \$5,000,000, is the action brought here today in the Superior Court by Attorneys Houghton and Houghton, secretaries of the Treasury, to sue for their fee in the case between Mrs. Broome and her three children, which resulted in one-third of the estate going to her and two-thirds being divided between her three children. Recently Mrs. Broome filed a strange statement with the County Recorder, in which she named for her secretary the Treasury Secretary, and the estate. She accused newspapers, various county officials and others of conspiring against her, but finally summarized her misfortunes as the "work of the devil."

## Property Sale is Planned for Wife's Support.

Three appraisers will be appointed to place a valuation on the personal property on the ranch of Ross E. Whitley, with a view to disposing of it and applying a portion of the proceeds to the support of Mrs. Whitley, who is suing for divorce.

James Isaac, formerly employed by the Garrett & Co. undertaking establishment, was called to lay proper foundation for testimony which the defense hopes to introduce today through Earl Rogers, who investigated the Denton case soon after the body was found.

MIDNIGHT MEETING. Comedy of a new kind was injected into the case during the rambling testimony of Miss MacLean and Mrs. Cox. The latter said she knew it was Denton her

## KIDNAPERS GO NORTH TO BEGIN TERMS IN PRISON.

Floyd and Jack Carr Admit Tale of Accomplice False as They Leave to Serve Ten Years to Life.

The two kidnapers of Mrs. Gladys Withersell began to pay the dollar, as they expressed it, at 4 o'clock last night, when, in the custody of four of their captors, they started for San Quentin to serve indeterminate sentences of from ten years to life imprisonment, eight days almost to the hour from the time of the kidnapping. Just sixty-one hours out of the eight days were required to run Floyd and Arthur ("Jack") Carr, the kidnapers, through the greased chute of justice.

The two cousins, who had constructed such an elaborate scheme with which to extort \$20,000 from the family of the abducted woman, were confined in the Southern Pacific sheds. Their hands were manacled together and their legs were lashed securely in the clutches of an Oregon boot. They were more cheerful than they had ever been since their spectacular capture and they talked willingly to a "Times" reporter in an effort to clear up a few discrepancies in their earlier statements.

"LAST WORDS." "Well," drawled Jack Carr, the younger kidnaper, "we've danced to our music and I reckon we've paid the dollar."

"Yep," agreed Floyd Carr, "we hold no malice toward any man, not even the officers who grabbed us. They treated us rough, but that's their business. I'm all right, Andy."

And Deputy Sheriff Andy Anderson, nursing a badly swollen hand, agreed that it was right.

"Boys," said Jack Carr, "before we leave, we want to let the world know that Mrs. Withersell is the pickiest little girl in the world. You tell the world she is, added Floyd Carr, "but she's too good to spit her fire on any man."

As the minutes sped on toward the time when the limited would leave the station, Floyd Carr, who expressed his desire to let the public know that he and his cousin, Jack, were the only persons implicated in the kidnapping of Mrs. Withersell.

"All that stuff about the 'Old Man' that I told you while we were coming in from the shack that morning, was all the bunk," Floyd Carr told the "Times" reporter. "I never fired those questions at me like a machine gun, and I was sore and wasn't feeling very good, so I just doped out a bunch of lies for you. It was all the bunk."

Floyd Carr then told how his grudge against J. A. Withersell and his son, O. S. Withersell, dated back two years, and how he and his cousin, Jack, were the only persons implicated in the kidnapping of Mrs. Withersell.

The kidnapers were taken to San Quentin by Detective Sergeant King and Constable Standand. They were taken to the jail and placed in the cells. The kidnapers were taken to San Quentin by Detective Sergeant King and Constable Standand. They were taken to the jail and placed in the cells.

Before sentencing the men yesterday morning, Judge Reese reminded the Carr cousins that a man's conscience can inflict the greatest punishment.

(Continued on Seventh Page.)

## REFUSES TO DISMISS FLAT BUILDING SUIT.

FEDERAL JUDGE RULES FOR OWNER WHO APPEALS TO LOS RESTRICTIONS.

In a decision handed down by U. S. District Judge Trippett on the motion of the defendant to dismiss the action brought by J. P. Gordon against L. M. Dimmock to restrain the latter from erecting a flat building on Kingsley Drive, on the assertion that to do so would violate the restrictions imposed by the original owners of what was known as the Ardmore Flat tract, the court denied the motion. The defendant was given twenty days to answer the bill of complaint.

When the tract was sold by William Wheat and Anderson, to Frank Rule, in 1905, there was a restriction against erecting a flat building on Kingsley Drive, in the immediate vicinity of the palatial home of Mr. Gordon. It is charged that to erect a flat building on the tract would violate the restriction, and that the cost of each must be \$400 or more.

The land was sold to one of the local banks, and subdivided. There are forty-two lots in the tract, and all but six have been sold to one of the local banks, and subdivided. There are forty-two lots in the tract, and all but six have been sold to one of the local banks, and subdivided.

The defendant, Dimmock, is seeking to erect a flat building on Kingsley Drive, in the immediate vicinity of the palatial home of Mr. Gordon. It is charged that to erect a flat building on the tract would violate the restriction, and that the cost of each must be \$400 or more.

While refusing the motion of the defendant to dismiss, Judge Trippett said his judgment was not final and might be reviewed in the subsequent proceedings.

## OLY MAN MARRIES.

"Lucky" California and Texas Operator Takes Bride Here.

Following a courtship of a year, the marriage of "Lucky" California and Texas Operator, who is known in California and Texas as "Lucky" Brown, and a woman known as "Lucky" Brown, was celebrated yesterday at the home of the bride's mother, Mrs. J. A. Brown, at 1223 East Twenty-fifth street.

The bride was attended by Mrs. Alberta Herndon. The best man was W. J. Davis of Detroit.

Mr. Scott is president of the Adventure Oil Company, which operates wells in the Huntington Beach field, and of the Montezuma Oil Company of Texas.

EX-PRISONER TO SPEAK. Eddie Young, formerly a prizefighter but now an evangelist, will speak at the Union Mission, 250 West Avenue 23, at 7:30 p. m. today. Public invited; take South Pasadena or Glendale avenue car.

### For 35 Years the ECLIPSE Gas Range

has been the silent, efficient servant of the American housewife who demanded the best.

—Its mechanical perfection allows no waste of gas.  
—It ventilates even insures even and thorough baking, with no formation of poisonous gases.  
—Its guaranteed replacement of any parts proving defective within 5 years insures perfect satisfaction.

An inspection of the Eclipse will win the approval of every woman of keen perception.  
May we help you select one of the 45 models best adapted to your home?

## DOROTHY DIX TALKS

### A WOMAN'S BEST FRIEND.

BY DOROTHY DIX.

A woman who is charged with having murdered a rich man, who was her protector and lover, is tried by a jury of women, because she says that only women can understand a woman in her position well enough to be merciful to her.

Yet this poor erring creature has committed the cardinal sin in the code of women. She is guilty of husband stealing. She is young and beautiful, and she took a husband away from a wife who had grown old and worn and haggard, working and scrimping and saving to help him pile up the fortune that he squandered on this other woman.

One might think that of all things on earth such a case would fear the untempered justice that a jury of women would deal out, but this woman knows better. She understands the psychology of her sex and shows an almost uncanny wisdom when she appeals from Caesar to Caesar's wife.

For it is only a woman who knows how great and many are the temptations that beset a woman who is young and pretty and who is only a woman who knows how hard it is to keep in the straight and narrow road. It is only a woman who can understand how a girl can sell her soul for a yard of chiffon and a pair of dancing pumps. It is only a woman who knows how many men there are in sheep's clothing, seeking for unprotected lambs to devour.

gain with fate, but at any cost the clothes that enhance their beauty and the pleasure they crave and must have now or never?

Men cannot understand this, because their personal appearance does not make or mar their chance in life. Nor do they have to make their sentimental hay while the sun of their youth and beauty shines, and so they judge more harshly than the woman does the poor little butterfly who barbers her all for the sake of flaunting her gaudy wings for an hour in the sunshine.

And women know, as a man never knows, that "the wages of sin is death." If this was true, it is not true seen the look of the damned in the eyes of their sisters of the street. They have heard that laughter that is sadder than the sound of sobbing on a woman's lips. They know that no child more ruthlessly breaks its toys, and casts them aside when it is tired of them, than a man does the woman who has been his plaything, and so even good women pity bad women more than men do.

Of course, this is not the old theory. That is, that women are hard on their own kind, and that women's inhumanity to women makes countless thousands mourn. If this was true, it is not true now. Women everywhere are stretching out their hands to other women, trying to help them, to comfort them, to uplift them.

There is no charity for the betterment of unfortunate women that is not one of the women's justice movement. It is women who reach down to the women in the gutters and try to pull them up to a higher level, and it is men who are the chief obstacle to the rehabilitation in society of the women who have sinned. Women are willing to forgive the Magdalene if she repents and desires to atone for her past, but men will not let their wives and daughters associate with one whose garments are mud bespattered.

You often hear a silly woman say that she has no woman friends, that all of her friends are men, and that when she wants to ask a favor she goes to a man for it. Fool. She knows not what she says, and she soon finds out her error if she has need to put friendship to the test. Men are but fair-weather friends to women. A man enjoys the society of a woman just as long as she makes no demands upon him.

While she is at her best, happy and gay, and prosperous, and well-dressed, ready to listen to him with a sympathetic ear, he is a charming and interesting friend. But let the "evil day" come, and all this is changed. If she is in need, he will lend her money, once or twice. If she is sick, he will send her a bunch of flowers. If her heart is broken, he will write her a note of condolence. Perhaps, and that's all. He will dodge her as if she had the plague, rather than listen to her tale of woe. He can walk ten miles to avoid having her weep over him, and when she becomes shabby, and a borrower of small sums, his office boy gets orders to say that he is perpetually out.

It is only a woman friend whose friendship will listen to the tale of listening, hour after hour, to the self-lash monologues of grief, who will let you weep out your heart upon her bosom, and who will invite you to dinner to her house, the shabbier and more forlorn you get.

And in business it is other women who push women up the ladder of success. Let a girl show any ability, any industry, any ambition to rise, and some woman above her will open the door of opportunity to her. It is the busy forewoman who teaches the little girls their trade. It is the girls who have jobs who are on the lookout for jobs for other

girls. It is women who go down into their lean purses and help other women in need.

### QUESTIONS ANSWERED

[Any reader can get the answer to any question by writing The Los Angeles Times Information Bureau, Frederic J. Harbo, Director, Washington, D. C. This office applies for information. The Bureau cannot give advice on legal, medical or other matters. Write full names and address. Letters two in stamps for return postage. All replies are sent direct to the inquirer.]

Question: In what countries, if any, does the United States own real estate? M. K. F.  
A: The United States owns real estate in China, Morocco, China, Turkey, Panama and Cuba, and in Japan. The United States owns the building occupied by the American legation in Peking, but does not own the ground on which it stands.

Q: What is the area of Jugoslavia and how many inhabitants has it? R. O. D.  
A: According to the Year Book, Jugoslavia has a total area of 161,244 square miles and a population of 13,318,892.

Q: Who invented football? F. G.  
A: Football has been known since ancient times. To the Greeks it was called "episkyros." The first travelers to the Polynesian Islands found the native players with a football made of fibers of bamboo. Italy knew the game in the Middle Ages, and the name "football" was known in England as early as 1274.

Q: What is the best knife for hunting? H. B. M.  
A: A weak solution of the question is to use a hunting knife. F. J. W.  
A: In a hunting knife the quality of the blade is more important than the handle. The blade should come far enough upon the grip to insure the knife slipping fast in it unless pulled out forcibly.

Q: How many paper bills does it take to weigh as much as a silver dollar? U. N. R.  
A: The Treasury Department says that it takes twenty and one-half new paper bills to weigh the same amount as a silver dollar.

Q: How can I tell direction by a common watch? N. C.  
A: The Coast and Geodetic Survey says to point the hour hand of a watch toward the sun. Half-way between the hand and the 12 o'clock mark will be south.

Q: I have never seen an Indian with mustache or whiskers. Are they a headless race? S. G. O.  
A: Most Indians would have a slight to moderate growth of beard and mustache if they allowed the hair to grow. Beards are not wholly unknown. Some of the Mexican Indians have full beards, the Guaranos, Bolivians, have long straight beards and the Cashibos of the upper Ucayali are bearded.

Q: What is the winter season as recorded by the Weather Bureau? M. L.  
A: The Weather Bureau says that the winter season is recorded from December of one year to February of the following year.

Q: What is the origin of the word "youthpaw"? M. F. L.  
A: The probable origin of this word is in the game of baseball. The diamond is usually laid out so that the pitcher's left hand is approximately toward the south. A left-handed pitcher became known as a southpaw, and then the term crept into general use.

Question: What is the Anthracite Coal Commission? H. J.  
A: The Anthracite Coal Commission, composed of Dr. William O. Thompson, chairman, representing the public; W. L. Connell, representing the operators; and Neal J. Ferry, representing the miners, was appointed by President Wilson to adjudicate the controversy between employers and workers in the hard coal industry. The anthracite miners ask a minimum living wage of \$8 per day, with increases that will place their rate of pay on

## GASOLINE ALLEY—A BIT LACKING IN HEART INTEREST

the bituminous fields, the eighth day, and recognition of their in the United Mine Workers of America.

Q: What is the cost of gasoline in postal air service? S. W. A.: On the New York-Washington aerial mail route a computation made between May 15 and June 20, 1919, which showed that the average cost of gasoline per mile was 16 cents.

Q: How old should lambs be at weaning time? F. R. N.  
A: Lambs should be weaned at 45 to 5 months of age.

Q: When was the first normal school established in the United States? W. C.  
A: Massachusetts led in this, as in many other educational innovations, opening a normal school in 1829.

Q: If, in a game of tennis, the "striker-out" rule "not ready" for a second service, but his opponent serves and the ball strikes beyond the service line, has the striker-out the right to claim that the fact he was not ready can make no difference, since a fault can not be returned after two faults have been served? M. C. E.  
A: A player cannot call "not ready" and then have the service count or not count as may suit his interest. The second service does not count.

Q: If, in a game of tennis, the "striker-out" rule "not ready" for a second service, but his opponent serves and the ball strikes beyond the service line, has the striker-out the right to claim that the fact he was not ready can make no difference, since a fault can not be returned after two faults have been served? M. C. E.  
A: A player cannot call "not ready" and then have the service count or not count as may suit his interest. The second service does not count.

### LETTERS TO "THE TIMES."

It Pays Better.  
HOLLYWOOD, Jan. 31.—[To the Editor of The Times:] We have just been through a "wave" of editorial correspondence, pulpit and platform pronouncements as to the why and the whence and the whither of the now well-authenticated "wave of crime."

Personal experiences that I am going through with one specimen of Los Angeles—rather American—landlordism seem to indirectly account for part of it, arising in an acquired sense of the part of the criminal element toward our dilatory, finicky, technical and altogether funny and ineffectual police service, where offenses against the innocent party have been "civil" in character; in this case a tenant in good faith and in lawful possession, who undertook to furnish la-

bor, material and cash as rent, who has been tricked with juggled accounts and tormented in various ways in which he has no immediate help or redress, by a notoriously dishonest "landlady." The police department finds itself absolutely helpless to make a move to protect the tenant against things in themselves unlawful, such as trespass and malicious mischief; but committed by the owner of the premises.

And I had supposed that a disturbance of the peace was a police matter, regardless of who the offending party might be in the social scheme. Therefore appears the temptation to join the active criminal class. It seems to pay better than honest toil and generous neighborhood service.

A. GEORGE.

Denies Statement.  
LOS ANGELES, Jan. 31.—[To the Editor of The Times:] As a citizen and taxpayer of Los Angeles for many years, a home owner, as well as being interested in income property, now I be allowed to challenge some of the wild statements, unsupported by facts, made about alleged rent profiteers. As a law-abiding citizen whose carefully chosen investments have been none too remunerative, let me cite a few facts and disabuse the minds of those who labor in error regarding the upkeep of rented property.

For the last few years the writer has been engaged in buying, repairing and making over houses and furnishing many of them for rental purposes (all with borrowed capital), and knows something of the cost and upkeep of such property. Carefully tabulated costs show an average of over 25 per cent has been expended on twenty separate houses.

And while the hue and cry is being raised against the rent profiteer, let us not forget that the property owner or landlord is not alone to blame for increased rental costs. It might be well to remember that the 1917 rocker of prewar days is now \$25, the 1918 rug is \$10, the \$4 bed is \$10, the \$10 rug is \$12, the \$3 to \$4 a dozen window shades are \$12 to \$20, the \$12 to \$20 gas range is now \$25 to \$40, and so on.

Also it might be well to remember that common rough lumber has advanced from \$12 to \$25; flooring from \$25 to \$35, with paint, hardware and wages increasing proportionately. A bungalow erected in 1917 for \$1200 to \$1500, costs \$2500 to \$3000 based on present prices, is

if any wonder that the rents have increased.

The city ordinance to limit the profits of landlords is about as safe, and sane as would be one levying a head tax on tourists to reimburse landlords for losses sustained in the

past. And why not a law that the individual householder should be allowed to advance in the years shall not be permitted for more than an 11 per cent increase over his purchase price?

R. F. M.

## Busy Americans Are Breakfast Rushers

They need food that tastes good, is eaten easily without impairing digestion, and that tunes up body and brain for a driving day's work.

## Grape-Nuts

This food contains in easily digestible form the concentrated nutriment of selected wheat and malted barley.

Its flavor tempts the most sluggish morning appetite, and it affords excellent nourishment.

Visit your favorite hair-dresser today—have a Cinderella Glint Shampoo—experience the unique delight and rare satisfaction made possible through this most modern of all shampoos. It vivifies the sheen and lustre—brings out the glint and shine—banishes the dull, drab shadows—makes the hair glow with a bewitching radiance—and yet in no way is the hair injured or the color changed. No other shampoo can do this—it is an exclusive Cinderella Glint quality. If unable to see your hairdresser soon, buy a package of

## Were you ever in Brown's fix?

Brown was a moderately thriving manufacturer of machinery, and it meant a great deal to him to have a ship at the big Hatfield & Cummins job.

While he turned out good machines and was in the good graces of his customers, still he did not rate as a large producer of industrial machinery.

Naturally there was a great commotion when the phone rang and Hatfield's voice came over the wire:

"Mr. Brown, we have to start installing the machinery for our new power plant addition at once. Bring over a contract form by noon, guaranteeing your telephone estimate of November 28th and we will sign with you."

Brown clapped down the receiver. He was a made man!

The Hatfield & Cummins order meant connections and prestige that would convert him into a formidable competitor for all sorts of big propositions.

But in five minutes he had lost ten years of his optimism. The penciled estimate was not to be found. He remembered perfectly having carefully put it away where he could readily find it—although the thought of having a swing at the big job had never really grazed him.

It was too late to gather the cost figures on so large an order—the paper must be found. In a mad scramble, Brown and his office helpers went pawing over every heap of papers on the desks, table and in the corner—but no result. Brown hadn't found

that estimate yet although he gave up looking for it long ago.

His concern was not converted into the ranks of big producers overnight. In the absence of an efficient filing system they had lost out in the big opportunity of years.

But Brown did not have to stub his toe twice to find out the trouble. He came into H. S. Crocker Company and told his story.

"Gentlemen," he said, "what can you do for me that will prevent a thing of that kind ever happening in my business again?"

He was shown the possibilities of the Art Metal Steel File for his particular office and requirements. He learned how he could have saved a \$75,000 order for his business, and how in the future he would always be able to put his finger on any piece of correspondence or office data he chose no matter when it might be needed.

Needless to say, Brown's office has been reorganized for future protection and efficiency.

## PASADENA NEEDS ROOM FOR PUPILS

School Man Urges Issuing Municipal Bonds.

Man Injured in Boxing Bout Shows Slight Improvement.

Manufacturer Injured by Fast-Flying Belt.

[LOCAL CORRESPONDENCE.] PASADENA, Feb. 2.—That Pasadena should immediately bond itself for \$500,000 or \$800,000 to erect new school buildings and thus relieve the most pressing instances of congestion in the local schools, was the statement made today by Prof. E. E. McCullough, principal of the Washington school. The bond issue proposed by the school board some months ago was voted down and the board has since declared it will not call another election unless the community insists upon it, feeling that the problem is up to the next board to be elected.

**BOXER OPENS EYES.** Showing signs of improvement after he had virtually been given up as dying, George A. Rawson, winter resident from Seattle and amateur athlete, opened his eyes for a brief moment today. He did not, however, regain complete consciousness and after opening his eyes for two minutes lapsed again into lethargy. But this was the first time he had shown the slightest signs of returning consciousness since he fell into the state of coma on the afternoon of January 30, following a friendly boxing bout with a fellow resident of the city, who was formerly an aviator.

**CAUGHT BY FLYING BELT.** Caught by a flying belt in his automobile radiator manufacturing plant, Joseph Auch was seriously injured here today. Before the machine could be stopped and the proprietor extricated, his left leg was fractured and badly mangled between the knee and the foot. But for the fact that the belt was operating under a minimum of power, the leg would have been literally torn off. The man will recover.

**TRAILED BY GIRL.** Shadowed by a girl, who enlisted the assistance of Pasadena police, three men, giving the names of Victor Amoy, Auciello Fandor and F. A. Bertoutman were arrested on Pacific Electric car bound for Los Angeles, here today, and are held on suspicion of having robbed Francis DeWane's drygoods store in Lamanda Park recently. The girl who followed the trio and sought about their arrest was Elizabeth Sinclair, a clerk in the store. Seeing the men, whom she remembered from the store, she followed them. The store was burglarized during the night recently and \$300 worth of goods stolen.

**TINY BUG POISONS MAN.** Because a tiny bug from some weeds he was pulling his finger got into a slight cut in one of his fingers, N. G. Felker, clerk of the Pasadena school board, was threatened with the loss of the hand. The infected finger was operated upon today and, it is believed, the hand saved.

## PAINTS PICTURE OF BRILLIANT FUTURE.

CONGRESSMAN - ELECT PREDICTS COMING OF GREAT-EST PROSPERITY.

[EXCLUSIVE DISPATCH.] SANTA ANA, Feb. 2.—Within twenty years most of American manufacturing will be on the Pacific Coast, and the most favored section of all will be the Southern California, Congressman-elect Phil D. Swing of El Centro predicted today. Swing's statement was made during a trip of inspection over Newport Harbor, for which he will seek a government appropriation while at Washington.

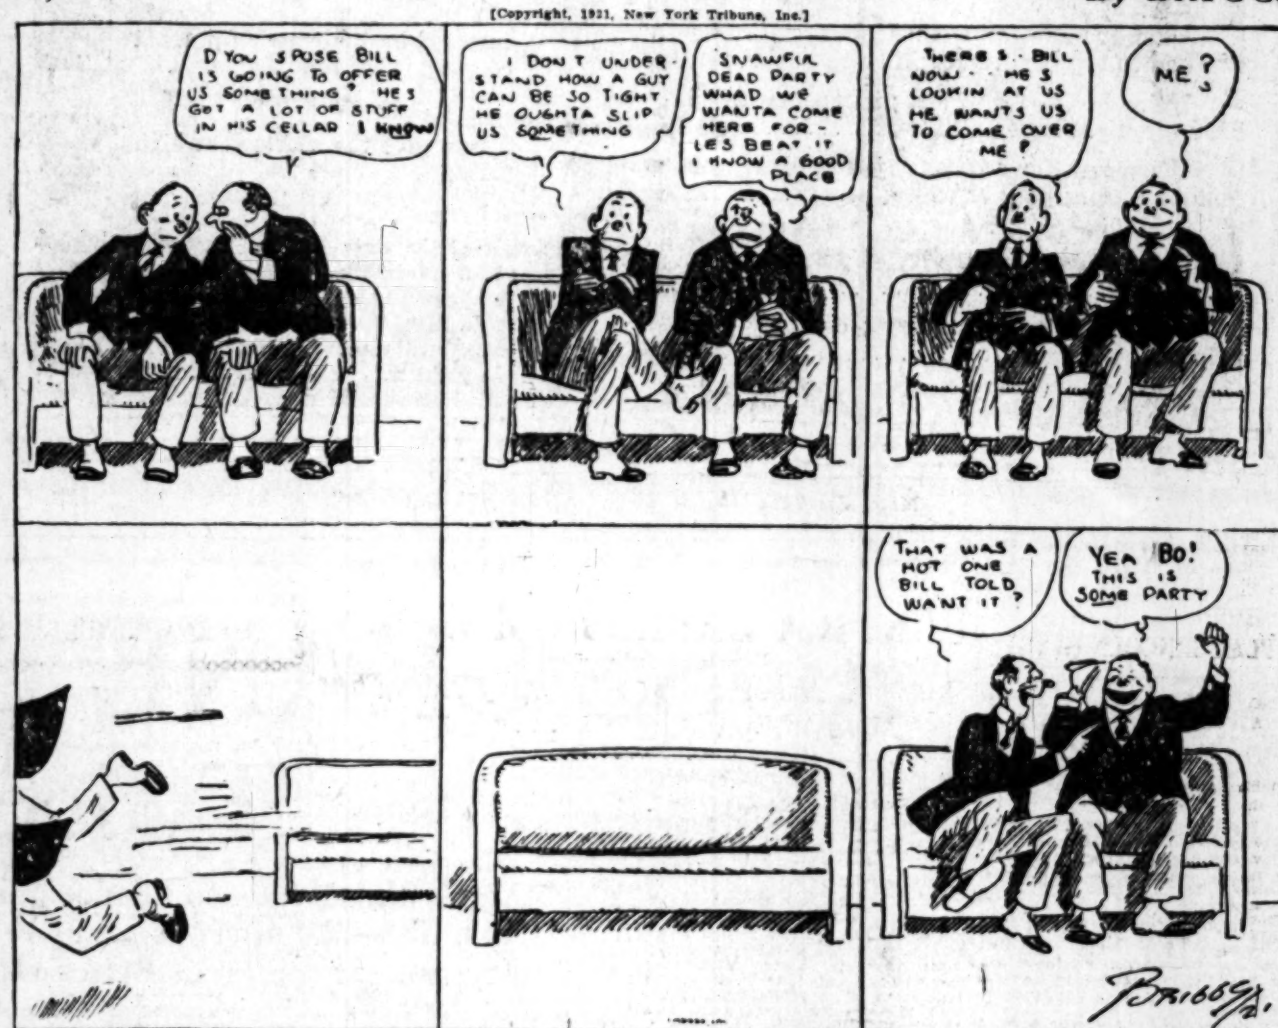

"Seventy-four per cent of hydro-electric power development in the country is west of the Rockies," Swing said. "Where power is, there are industries and where there are industries there must be an extensive population. When that time comes, water transportation will be necessary, and every available harbor on our Coast will be utilized, and Newport Bay certainly has the makings of a good harbor."

"The West is on the incoming tide," Swing declared, and the transfer of half the battle fleet to this Coast is only one surface indication of the fact that the nation is looking to the Pacific Coast for the big development of the future."

The new Congressman was accompanied over Newport Harbor by the harbor commissioner's engineer and local harbor enthusiasts. This afternoon he conferred with directors, boat and bean men here and tomorrow will be spent in the Anaheim-Fullerton-La Habra district.

## THE GUMPS—RIGHT ABOUT—FACE!

All We'll Say is That Mr. Harding Has Chosen Wisely

By BUD FISHER.

## LEGION TO FIGHT REDS TO FINISH.

STATE COMMANDER IN STRONG APPEAL FOR RED-BLOODED AMERICANISM.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, Feb. 2.—"That gang the American Legion will fight just so long as we continue to exist as an organization," declared State Commander Byron Fitts in an address before the local Legion last night.

The speaker was referring particularly to the I.W.W., saying: "Let us take a definite stand, with no room among us for the Red sheiks or the I.W.W. or any other organization that has as its object the tearing down of the flag and the destruction of the Constitution. There should be but one aim, and that is the aim for which our buddies died in France—plain, unadorned, 100 per cent Americanism."

The speaker also appealed to his audience, which included the Legion auxiliary and a large number of friends of the Legion, for a fight to finish against "millionaire profiteers."

The speaker touched briefly on the activities of the Legion regarding the Japanese question, urging unity and the importance of pursuing a constructive policy in considering questions of this character.

**NEW TRAFFIC MANAGER.** [LOCAL CORRESPONDENCE.] LOS ANGELES HARBOR, Feb. 2.—Another important change in the officials of the Los Angeles Shipbuilding and Dry Dock Company was announced today when Robert E. Mansfield, traffic manager, resigned.

His position is to be taken by M. E. Cox, who has been Mansfield's assistant for some time. Mansfield will leave for San Francisco to take a position with Hill & Hubbell, manufacturers and distributors of ship supplies.

## LA HABRA NOTES.

[LOCAL CORRESPONDENCE.]

LA HABRA, Feb. 2.—Mr. Thomas Ellzey, field speaker of the National Sunday-School Association, was speaker at the banquet given at the Methodist Church last evening. There were ninety-two men seated at the tables. Rev. Grant Smith, pastor, and the trustees of the church were hosts at this meeting of the brotherhood. Mr. Ellzey's subject was the rights of every boy in the community.

North La Habra Heights is coming to the fore as the avocado district of the south. Seven acres purchased by J. L. Nicklin, a retired show manufacturer of Pontiac, Ill., were planted, and Mr. W. H. Holloman, a veteran grower of the toothsome fruit, has fifteen acres in course of improving and planting. Mr. Holloman will use his famous Blue and Gold brand. The La Habra Midway Oil Company celebrated the opening of their new well with fitting ceremonies. Miss Dorothy Bishop christened the well with a bottle of oil from the famous Chapman sushier. One unique feature of this celebration was the entire absence of stock selling. Refreshments were served by the wives of the stockholders. A large crowd of friends and acquaintances were present and were more interested in the quantities of free oranges from some of the famous ranches than in oil.

## STOWAWAYS FAIL TO MAKE GETAWAY.

[LOCAL CORRESPONDENCE.]

LOS ANGELES HARBOR, Feb. 2.—When the Luckenbach Steamship Company's fast freighter Julia Luckenbach sailed for New York at 5 o'clock last night, two stowaways concealed themselves in the fore peak of the vessel.

When the ship had proceeded twenty of the San Diego midwinter ex-

miles out to sea the men presented themselves on deck and announced they would work their way to New York. Capt. Smith, commander of the vessel, however, decided his self-appointed passengers had better be placed ashore here.

A wireless message was sent to the harbor pilots, asking that the pilot boat meet the Julia Luckenbach at sea to take off the stowaways. The freighter turned back to port and the men were brought back to shore. The delay was very costly to the steamer. The identity of the stowaways was not learned, as they disappeared as soon as the pilot boat reached the dock.

## RAILROAD MAN ENDS HIS LIFE.

LONG SUFFERING BREAKS HIS MORALE—STRAW HATS IN WINTER TIME.

[EXCLUSIVE DISPATCH.]

SAN DIEGO, Feb. 2.—David W. Bailey, a former railroad employee, took his own life this morning at his home in this city, by shooting himself through the head with a revolver.

Bailey had grown despondent over injuries received some years ago in a railroad accident, when he lost both legs. This morning he asked his wife for a hot water bottle, and when she went to get it in another room he shot himself. He and his wife came here two years ago from Chicago, where he was an employee of the Nickel Plate Railroad Company as yard foreman. He was 52 years old.

**JUST LIKE SUMMER.** A straw hat luncheon 110 feet in the air on the roof of the St. James Hotel, this city, is to be staged this month by the San Diego Realty Board. John Aason, the Norwegian boy giant, will act as host to the luncheon, and H. J. Penfold, secretary of the board, will preside.

When the ship had proceeded twenty of the San Diego midwinter ex-

By BRIGGS.

position, will be the principal speaker. The fact that a luncheon can be held at this time of the year on a roof in the city and that straw hats will be seasonable will make the event noteworthy.

**NEW GOVERNOR.** [LOCAL CORRESPONDENCE.] SOLDIERS HOME, Feb. 2.—General order No. 2, issued this date, briefly directs that Col. O. K. Marshall, newly appointed Governor of the Pacific Branch, National Home

## FORMER PROFESSIONAL NURSE ENDORSES

Graduate of Bellevue Hospital, New York, Expresses Gratitude to Tanlac for Wonderful Results She Obtained.

One of the latest to add her name to the long list of Tanlac endorsements is Mrs. Lily A. Lorentzen, 285 Faxon Ave., San Francisco, who, before her marriage was a trained nurse, a graduate from Bellevue Hospital, New York. Mrs. Lorentzen has a host of friends and acquaintances and her statement, coming as it does from one who has had so much experience in relieving suffering, will be read with wide interest.

"Twenty-six years ago," she said, "while on a visit to the country I had a severe sunstroke and was down in bed for a year and eight months after that, and had to be fed artificially all that time. As a result my stomach was left all upset, my appetite was almost gone and I suffered with awful pains and cramps. At times I just cried out, I was in such misery, and I would

bloat up so bad I could hardly breathe. I grew worse each year and I was operated on, but I couldn't improve, and I couldn't eat. I was so nervous and worried all the time. My health was so bad I often broke down completely from weakness and have to go to bed."

"That was my condition when I began taking Tanlac a few years ago and it was one of the joys of my life, as it turned perfectly. My stomach turned and the stomach nervousness left me and I did in every way."

"Then some time ago I caught on fire and we were out, and the excitement unnerved me and set me back. I was feeling right back, but I was feeling well and more. I am in splendid health and just can't tell how I feel to Tanlac for all she has done for me."

Tanlac is sold in Los Angeles and San Diego by Drug Stores. A personal representative is at the Broadway Store, after the advertisement.

Remove your shoe; then place your foot on a piece of paper and draw a line around it; then draw an outline of the sole of the shoe you've been wearing, compare the outlines. If they correspond, your shoe is a correct fit. If there is a distinct difference you see before you cause of your foot troubles.

If the shoe is a Ground Gripper the lines of the foot and those of the shoe will be the same.

## ARCH 17 BOUT DECLARED OFF

Willard Scrap Definitely Postponed.

Who is Here, G

May be Set Down

Next Labor Day.

Dempsey, the world's best champion pugilist, who was local boxing circles when he declared that with Jess Willard scheduled for March 17 had been declared champion could give no reason for the cancellation. He had received a telegram from the manager, Jack Kearns, now in New York, announcing indefinite postponement of the fight.

**SINCE AT REASON.** Dempsey hinted, however, that the action was occasioned by the recent ruling of the boxing commission, which set a limit price of \$15 to a ticket. He was inclining to believe that he and Willard would meet on Labor Day. If the date is hit upon it would be possible to the conqueror.

Word has been sent to the promoter, tonight, that the Dempsey-Willard fight was off, had been scheduled with the consent of both men, until Labor Day, September 5.

He said he would stage a fight on Third Page.)

## MAN O'WAR TO LIVE LIKE KING.

Famous Thoroughbred Now on Kentucky Farm.

Victor of Sir Barton Has Every Luxury.

Every Precaution to Keep Him from Injury.

(BY A. P. NIGHT WIRE.)

LEXINGTON (Ky.) Feb. 7.—Every luxury lavished on royalty is to be the portion of Man O'War, world champion thoroughbred, at Hinata farm, near here, where he has just been retired to the stud.

A private groom, private feed tubs, a private pasture where he is allowed to run loose, these are some of the things that are being provided by his owner, Samuel D. Riddle of Philadelphia, and Miss Elizabeth Dingerfield, noted woman breeder of thoroughbreds, under whose care he has been placed.

Animals such as Man O'War are not allowed to do the many things their plebeian brothers and sisters do that might expose them to danger. When the famous racer left the farm at Berlin, Md., where he was stabled after his return from his triumph over Sir Barton at Windsor, he was placed in a padded automobile and hauled to the express car. On his arrival in Lexington he was unloaded into another van and taken to the Kentucky Jockey Club race track for exhibition to admiring thousands of Kentuckians.

### INSEPARABLE COMPANION.

When he was taken from the track to Hinata farm, a distance of six miles, he was again placed in a van and hauled over the smooth highway to the farm. There he was unloaded and placed in a stall specially prepared for him, with the companion of all his travels, Maj. Treat, the old steeple-chase racer, on one side, and Golden Broom, Mrs. Walter M. Jefford's 4-year-old stallion, on the other. For Man O'War loves equine company and he is to be satisfied by having his chum with him as well as another high-bred animal.

Although Miss Dingerfield, whose reputation as a breeder of race horses is second to none, has said that "A horse is a horse and Man O'War will just have a stable," she told the representative of the Associated Press that she had remodeled a barn on the farm for him. The box stalls prepared for Man O'War and Golden Broom are large and roomy, giving them plenty of room in which to turn and lie down at will.

### PREVENT INJURY.

Feed tubs for Man O'War have been specially built by a Lexington tinsmith, special precautions being taken to see that the famous racer cannot injure himself. The stalls in the barn are much like those in the barn of any thoroughbred breeding farm, but through and about the barns at all hours of the night a watchman makes his way to see that no harm befalls any of the stars.

In a house near by will live Frank Loftis, the man who always has cared for Man O'War since his early days on George Belmont's Nursery Stud, six miles from Lexington, on the Georgetown pike, and where his dam, Mahubah, and his sire, Faint Play, still are stabled. Loftis will stay with the famous horse, caring for him by day and on call any time that his services may be needed.

### WELL BEHAVED ANIMAL.

"Man O'War is a well behaved animal and no extra precautions have been taken in his stall to prevent his injuring himself," said Miss Dingerfield. "We have made no very unusual preparations for him. I have had a stable remodeled with three stalls, one for Man O'War, one for Golden Broom, Mrs. Jefford's stallion, and a smaller one for Maj. Treat, Man O'War's companion. I have prepared a small house near by for Frank Loftis, his groom, to live in. The regular night watchman of the farm will be on duty during the hours when the groom and caretakers are not present. The books for Man O'War and Golden Broom have not been prepared and I do not know to what mare he will be bred, but the plan is to breed him to about fifteen this season.

### CHAMPIONSHIP SHOOT IS DATED FOR MAY 1.

The directors of the Los Angeles Gun Club got together yesterday and after a confab with Elmer Shanon, president of the American Trap-shooting Association and J. R. Arthur, secretary and treasurer of the California and Nevada body agreed upon a big shoot date. It did not take them long to hit upon May 2, 3 and 4 as the dates for the big championship tourney which will come off at the Los Angeles Gun Club.

Practice day will be May 1. The added money for the first prize will be \$1500. The shoot will consist of 200 targets and will be open to men, women and professionals. Many other trophies will be contended for during the four days' shooting.

### KEGLEY'S POET PREPS TO TACKLE SAN DIEGO.

(SPECIAL CORRESPONDENCE.)

WHITTIER, Feb. 2.—Coach Kegley's Poet Preps are wondering who is to receive the surprise package Friday evening when the local quintet meets the San Diego casaba chasers on the High School gym court. No Master Mind has been able to discover just what San Diego can do, as the southerners are playing their first game in the recently organized Coast League which includes Whittier, San Diego, Long Beach and Santa Monica.

Kegley has about thirty aspirants for basketball honors and from these he has chosen the following for a workout Friday night: P. Erick and Sturgeon, forwards; J. Macorrie, center; Wingert, Harris, Ringland and McKinney, guards.

### AIR RACE IS OFF.

(BY A. P. NIGHT WIRE.)

NEW YORK, Feb. 2.—Plans of the Aero Club of America for an international air race around the world have been abandoned, officials of the club announced today. Flyers declared that such a race was not practicable at the present stage of aeronautics.

### URGENT BOXING BILL.

(BY A. P. NIGHT WIRE.)

LINCOLN (Neb.) Feb. 2.—American Legion members appeared before a House committee to urge passage of the bill legalizing boxing.

## MARCH 17 BOUT DECLARED OFF.

(Continued from First Page.)

bout on that day between Willard and the winner of the Dempsey-Willard match until Labor Day," he said.

### VARIOUS CAUSES.

"For various reasons I have decided to postpone the Dempsey-Willard match until Labor Day," he said. "While both Dempsey and Willard are willing and eager to observe the original contract and meet in Madison Square Garden, March 17, I have decided that the contest had better be staged in the open, following the Dempsey-Carpenter match of July 2."

"I shall, therefore, erect a large open-air arena for the international contest and stage a match between Willard and the winner of the Dempsey-Carpenter bout under the existing contract, September 5."

### OPEN-AIR ARENA.

Rickard said he intends to erect an open-air arena near this city this spring and transfer his boxing organization there during the summer. During the open-air period he will stage championship bouts in all weight classes.

The arena will seat at least 50,000 spectators and will permit the offering of large purses on a percentage of the gate receipts without handicap under the ruling of the New York State boxing commission. It is expected that in addition to the gate receipts, Dempsey and Willard, Leonard, Kilbane, Willson and others will take part in the contests.

KANSAS CITY, Feb. 1.—"It's news to me, but if Tex Rickard wants to postpone my bout with Dempsey until after the champion's match with Carpenter, I am willing," Jess Willard, former heavyweight champion, said in a long-distance telephone conversation from Lawrence, Kan., tonight.

### WHEN I LEFT NEW YORK NOTHING WAS SAID TO ME OF THE CHANGE IN DATE.

Willard arrived in Lawrence unexpectedly this morning. He plans to go to his ranch near Topeka on business and then probably will return to the East. None of his sparring partners accompanied him to his home.

### BASKETBALL RESULTS.

The following were the results in the intercity basketball games yesterday—Dyas Company, 41; Hunting Park American League, 27; Y.M.C.A., 42; Standard Oil, 21; Ohio State Collegians, 36; Central Intermediate High School, 25; Los Angeles Men's Club, 42; San Fernando Ad Club, 27.

The next set of matches will be played tomorrow.

## Eruptions of the Skin Cause Torturous Itching

If you are afflicted with any form of skin disorder, you are well acquainted with the flaming, burning itching that these diseases produce.

So many people continue to suffer from eczema, tetter, and other forms of skin disease because they do not seek the source of their suffering, and no disease can be successfully combated unless attacked at its source.

Skin diseases are caused by an impurity or disorder in the blood, and there is no real and genuine relief within your reach until such impurities are removed.

This explains why disappoint-

## Eruptions of the Skin Cause Torturous Itching

ment comes from the use of lotions, salves, ointments and other local remedies.

S.S.S. has given great satisfaction in the treatment of these disorders, because it is such a thoroughly satisfactory blood purifier. It cleanses the blood of all impurities, and thus counteracts the effects of the germs that attack the skin.

Begin taking S.S.S. today, and you will write a complete history of your case, our medical adviser will give you expert advice without charge. Address Chief Medical Adviser, 822 Swift Laboratory, Atlanta, Ga.—[Advertisement.]

# KIDNAPERS TAKEN NORTH.

Their Last Words Are in Praise of the Woman Whom They Abducted.

(Continued from First Page.)

punishment upon them. After the capture of the kidnapers had testified, O. S. Withers told the court of the constantly recurring vision his wife has of the ordeal she had passed through.

Floyd Carr said he had been planning the kidnaping of Mrs. Withers for about a year. He said that the burn on her ear had been caused by the chloroform spilling on her face when the car had lurched. He also admitted using force, which caused the marks on her body. He also testified that he had told Mrs. Withers whatever the sentence might be against them, it might be reduced for their good behavior. To this remark the court only responded: "Uh huh."

Then the court said: "Well, I don't know of any offense, even those punishable by capital punishment, that is more despicable than the offense committed by you, and to which you pleaded guilty. The law fixes the punishment at life, and not less than ten years. There is a parole board, but the parole board usually consults the judge that passes sentence before there is any action taken. I don't know that I will be the judge at that time—I hope I am, because the punishment that is inflicted on you is very, very slight compared to the punishment you inflicted on this woman. As testified here, they don't know what the result has been. It may be that from the present time for the balance of her life, she will be living continuously what she has been through. I have seen people that have been rescued from slavery such as have been inflicted upon her. I have passed upon them; I have had them beg and plead to be put out of the way, to get away from this horrible nightmare that they have been living through. Possibly when you men are thinking this matter over it may come home pretty clearly. A man's conscience—and he has one, no matter how low he is, how low down he stoops—that conscience does speak to him and speaks to him many, many times. I only hope that you have one and that it will continue to talk to you, because that, in my mind, is the best kind of punishment that you can have. That is the only punishment, outside of the punishment that this court can give you, of being deprived of your liberty, that can come to you. It may be, as I say, that this girl may never recover. It doesn't make any difference, except from the moral standpoint, as to whether you attempted to commit any immoral act against her. When you laid your plans to take her, when you did take her, and when you held her, when you knew she was suffering, when you used this chloroform on her so that you could carry out your purposes, it showed the caliber of men you are. So, Arthur W. Carr, it is the judgment of this court that you be committed to the custody of the warden at the penitentiary at San Quentin as prescribed by law."

The husband of the victim of the Carrs said that his wife's condition at present is pitiable, that she cried and struggled and had to be held in bed. He said she is still suffering in delirium. He said his wife said the Carrs mentioned the possibility of stolen girls being sold to white slavers.

Detective King told of finding Mrs. Withers in the cabin near Corona in a "bed of rags," and in a hysterical condition. The witness illustrated by kneeling near the judge's bench.

## TAKEN AS "MASHER."

Youth, Free on Bail, Denies he Offered Insult to Girl.

Accused of having attempted to force his attentions on Miss Vivian E. Rice, a nurse in a doctor's office, a young man giving the name of W. C. Atwater was arrested yesterday and charged with disturbing the peace. He was released under \$500 bail and will appear in police court, Saturday at 11 a.m.

## DROP MURDER THEORY.

Investigators Believe Body Found in Surf that of Suicide.

Adolph Ebermeyer, whose body was found in the surf at Santa Monica, was not murdered, as suspected, but probably committed suicide, according to information received yesterday by Deputy Sheriffs Fox and Nolan. The post mortem examination of Dr. A. F. Wagner, county autopsy surgeon, disclosed a bullet lodged in the brain and the fact that Ebermeyer was shot through the temple, from the right to the left. Because no powder marks showed, it was thought the bullet, of .33 caliber, was fired from a distance, indicating murder. The deputies believe, however, that the man held the revolver against his temple and fired, thus eliminating the possibility of powder marks.

**SEEK MISSING MEN.**  
John Wagner and Heinrich Neumeister, known also as Henry Newmaster, are sought by the Swiss Consulate in San Francisco, according to word received here yesterday by Attorney Max Adler. Wagner's mother recently suffered a stroke of paralysis and is anxious to hear from her son, who has failed to communicate with her since 1914. Neumeister was last heard from ten years ago as living in Baldwin Park.

Wobbly wheels wear out tires. Have your wheels trued up. Western Wheel Company, 1625 South Los Angeles street.—(Advertisement.)

# To San Quentin to "Pay the Piper."

Kidnapers Carr Cousins Leaving for Prison.

This photograph was made at the Arcade station last night as the abductors were leaving. Left to right, Detective King, Floyd Carr, Arthur (Jack) Carr and Deputy Sheriff Anderson.

## ON SOUTHERN TOUR.

Revenue Chief and Field Head Leave on Inspection Trip.

Internal Revenue Collector Carter and Maj. Frank McKeenolds, chief of the field division of the local district, left yesterday for a survey of the stations in San Diego, Imperial and Riverside counties where internal revenue agents are stationed to convey needed information to the Federal taxpayers.

Very year it is necessary partially to reconstruct the force of such agents and to make changes for the good of the service.

Commercial and business conditions will also be looked into on the tour. The officials will not return to Los Angeles before next week.

## BROCKMAN ELECTED.

Chosen Imperial Irrigation District Director by Large Vote.

[EXCLUSIVE DISPATCH] CALEXICO, Feb. 2.—C. W. Brockman was today elected as director of the Imperial Irrigation District over James E. Pack by a vote of 507 to 386. O. E. Thomas, all-American canal advocate, got 25 votes.

## IN CONCRETE DESIGNING.

A class in reinforced concrete building design is being organized at the University of Southern California, to meet from 7 to 8:30 p.m. on Monday and Thursday in room 106 of the Annex Building, Thirty-fifth Place and University avenue. The first session of the class will be at 7 p.m. today.

# Togs for Sports Wear

Unique apparel for the out-of-doors woman that has the distinction of being out of the ordinary. Sportswomen will be intensely interested in the many unusual ways in which the smartness of style is combined with the freedom allowed to the wearer.

## Sports Suit

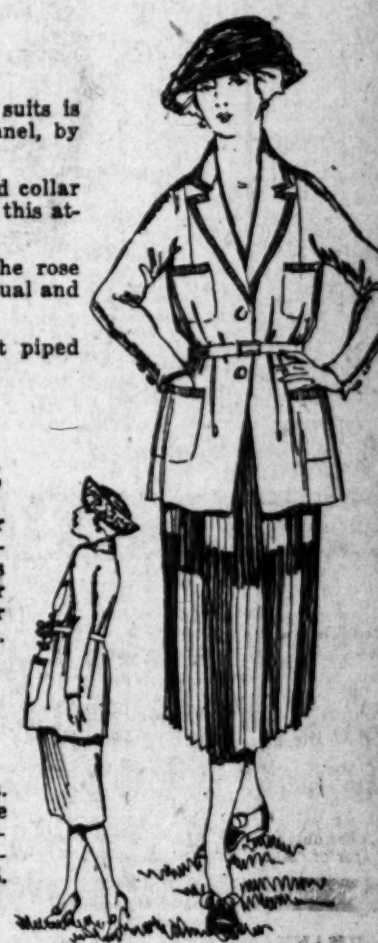

One extreme novelty in the realm of sports suits is fashioned from rose colored flannel, and flannel, by the way, is one of fashion's favorite fabrics.

The Sports Coat is a belted model with notched collar and four patch pockets. White pipings finish this attractive coat.

The Skirt is knife pleated and it combines the rose fabric with insets of white, making a most unusual and very effective model.

Another pretty model features a yellow coat piped with white and a plain white skirt.

Price \$85.00

## Silk Sports Suits

The new silk suits are also authentic for sports wear. They are shown in a splendid diversity of styles in novelty sports silks. They are Tuxedo or notch collar models with long or three-quarter sleeves. Buttons are used as trimming. Priced \$115.00 to \$150.00.

## Silk Sweaters

Silk Sweaters in plain and fancy weaves. Tuxedo models with fringed sash. The newest spring shades are featured—Cascade, tomato, orange, navy, pink, almond, white and black. \$37.50 to \$75.

(English Sports Apparel Shop—Fifth Floor)

**Hosiery**  
All silk, full fashioned hose, that are well reinforced. Shown in many novelty colors, including African brown, Russian calf, orchid, delft blue, pink, silver, gray, canary, rose and others. \$3.00 Pr.

**Silk Hosiery**  
Full fashioned pure silk hose, with elastic garter top, reinforced with double heel, sole and toe. Colors: Black, medium gray, French gray and cordovan. Price, a pair \$3.45. (Hosiery Shop—Street Floor)

**Over-Blouses**  
Smart Over-Blouses of Crepe de Chine and Canton Crepe, the leading Spring fabrics, embodying unusual originality of design, and exhibiting all of the little delicate touches of cut work and silk embroideries. Colors: Burnt orange, dark rickey, Chinese blue, navy, brush, yellow, tomato, sunset and tangerine. Priced from \$17.50 to \$57.50 (Blouse Shop—Third Floor)

**Chantilly Laces**  
Dame Fashion predicts a season of laces. Wednesday the Lace Shop offers varied assortments of white, black, cream and ecru Chantilly laces and bands to match. From 3 inches to 45 inches wide, in floral or panel effects that are so effective for evening gowns. Prices Range From 75c to \$16.50 a Yard

**Imported Net Flouncings**  
New and unusual assortments of imported net flouncings and bands, embroidered in silk and yarn in marvelous color combinations and Oriental designs. Priced From \$5 to \$15 Yard

Mission Play Tickets on sale at Travel Bureau—Street Floor.

**SPECIAL FEATURE**

## HAS NOT EATEN FOR TEN DAYS.

Chiropractor in City Jail Says  
He Feels "Fine."

Hunger Striker Shows Signs  
of Loss of Weight.

Still Thinks He Will Live  
Through Ninety Days.

Health Engraver, hunger-striking chiropractor, last night completed his first one-ninth of his ninety-day jail sentence for a violation of the state medical law. He began his fast on January 24. Last night he made a statement from his cell in the City Jail, in which he declared that he was "feeling fine."

"I expect to last out my ninety days," declared Engraver last night. "I am taking good care of myself and am drinking lots of water. I have not had a bite to eat since I was locked up. I am not going to eat anything until I am released. I think that I will be able to last through without much trouble."

Although a little drawn about the face and not quite as heavy, the prisoner last night appeared to be in about the same condition as on the day he was jailed.

The chiropractor was sentenced to serve ninety days in the City Jail or a fine of \$200 by Police Judge "Red" Erickson. He was found guilty by a jury of a violation of the state medical law. He refused to pay the fine and was sent to jail. After sentence was pronounced by the court Engraver declared that he would not eat until released. He declared that he would rather die than pay the fine.

WED. THEY LEAVE ON  
MOTOR HONEYMOON.

ONLY RELATIVES AND FRIENDS  
PRESENT AS FORMER  
MAYOR TAKES BRIDE.

Out on the great highway to Santa Barbara and Northern California, former Mayor Frederic T. Woodman sped yesterday afternoon with his bride of a few hours, formerly Mrs. Katherine P. Winter.

RETIRED HOTEL MAN  
DIES AT HOME HERE.

BROUGHT REGISTER WEST TO  
TRIAL OF McNAMARA TEN  
YEARS AGO.

Funeral services will be conducted tomorrow at 2 p.m. at the McKellop chapel for Frank W. Gates, retired hotel man of Massachusetts and the witness in the McNamara trial in 1911, who brought his hotel register on Rochester, Pa., to testify as to the identity of the McNamara brothers. The Rev. Baker P. Lee, Episcopal minister, will officiate at the service. Interment will be in Forest Lawn cemetery.

Mr. Gates died at the age of 83 years at his residence at Second and Olive streets. He was born in Worcester, Mass., and amassed considerable wealth by conducting a string of hotels in Massachusetts, Pennsylvania and New York. He operated the first street car run in residence. R. J. Durkin, the past several years he was declared incompetent and Ed R. Love, of 1620 S. street, has handled his business affairs. Mr. Gates leaves no known relatives.

FAIL RECKLESS DRIVER.

He Days for Antidote Who Nearly  
Hit Police Machine.

Lawrence Fisher of 975 Federal street was yesterday convicted of reckless driving by Police Judge Erickson and sentenced to serve five days in the City Jail. Fisher was run into custody on January 31, after Seventh and Figueroa streets, where he collided with a police automobile.

## HELL PLAY LIKE OTHER BAIRNS NOW.

Brawley's Little Lane Boy  
Put on His Feet by Human  
Kindness and Surgery.

Money may be the root of all evil, but it would be hard to convert little Reuben Franks of Brawley to that opinion. Three hundred and seventy dollars put him on his feet, literally as well as figuratively.

Reuben was the little lame boy of Brawley. He went to the school playground every day and mingled with the other children, but did not participate in their games, because he had deformed feet.

One day the Mothers' Club of Brawley asked Superintendent of Schools Willebrandt what good it could accomplish in the community. He turned toward the window and pointed to little Reuben Franks, who was leaning on his crutches in a bevy of happy-hearted children on the school grounds.

The club raised \$270 and then went to see Reuben's mother. She accepted its offer of assistance and came here with her little boy and a representative of the club. Dr. Wilson and Dr. Dugan operated on Reuben's feet the other day and now the Mothers' Club of Brawley has a human example of the value of money.

WED. THEY LEAVE ON  
MOTOR HONEYMOON.

ONLY RELATIVES AND FRIENDS  
PRESENT AS FORMER  
MAYOR TAKES BRIDE.

Out on the great highway to Santa Barbara and Northern California, former Mayor Frederic T. Woodman sped yesterday afternoon with his bride of a few hours, formerly Mrs. Katherine P. Winter.

The marriage ceremony was performed by Dr. James A. Francis, pastor of the First Baptist Church, at the home of the bride at 514 Shatto place at noon yesterday. Only a small number of relatives and close friends were present.

In their two weeks' honeymoon by auto throughout the state, Mr. Woodman and his bride will continue a romance that was begun four years ago when the bridegroom was mayor of Los Angeles. On their return they will make their home at the residence of the bride's mother, Mrs. D. Potter at 514 Shatto place.

Mr. Woodman was first appointed mayor by the City Council on Sept. 10, 1916, to fill the unexpired term of Charles E. Sebastian, who resigned. He was afterwards elected mayor in 1917, but was defeated in the last Mayoralty election by Meredith P. Barber. The bride is a native daughter of California.

WHL ASK PROBATION.

Convicted Chiropractor Gets Right  
After Hearing Fine Named.

After Herman P. Rogge, a chiropractor, had been found guilty by a jury in Judge Reeves' court yesterday of violating the state medical act by practicing medicine without a license, he waived time and was fined \$100 with an alternative of sixty days in jail and then asked permission to file an application for probation. The court set aside the sentence and granted the defendant the right to file such an application, setting the first inst. as the date for the hearing.

## Facts and Fancies Gathered in the Realm of Feminine Fashions.

IN STORES AND HOMES.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.

**Up-to-Date:**  
The dominance of neckwear in milady's attire is becoming daily more noticeable. Vests and vestees are collared in many ways, including the choker, the overturned shirt collar, the round flat collar with loosely tied scarf or ribbon, the lapel collar of net, lace or organza. Many dresses for informal use wear these lace collars reversed, especially when the bodices or blouses fasten down the back or not at all.

Small bead purses for carrying to matinee are interesting and convenient. The rounded bags beaded in lovely colorings and designed in circular frames of gilt, lidded with the same. There are straps for slipping over the wrist.

Now is the Time to Buy:  
The spring hat. This season millinery has blossomed unusually early and is exceptionally attractive.

The little tailleur for between seasons use. Either ready-to-wear or made on these garments are an essential of the half-season. Silk hose where they are on sale at lower prices. With the low shoes and pumps so generally worn, nothing can take the place of silk stockings. Various tones of gray are favorites, with gray shoes or black.

The Sports Skirt.  
In Los Angeles, one must have sports clothes whether or not one is given to sports. The sports skirt and jacket have for many seasons been prime ingredients of the wardrobe. Many changes are rung upon these garments as well as upon accessories and upon millinery for sports attire, but the skirt and jacket are, of course, the framework of all. Stripes are the newest material for sports skirts and often extend from the top of the skirt to the hem. Sometimes these stripes are an integral part of the fabric, which is either soft and loosely woven, or of a more smoothly finished surface, or again the contrast is achieved by means of a plaided material forming a contrast, as white with black, or navy; brown with tan or setting dull tones. Frequently, the sweater, blazer or jacket, is whatever form tones with the skirt and the vestee, hat, scarf and other accessories form the contrast.

The favorite colors for sharp contrast are green, a new bright blue, yellow and rose. In fact the discriminating woman will select her favorite shade and it is to be hoped, the one most becoming and will carry this tone throughout the scheme of her sports attire, with a similarly becoming background. The range of popular colors is so wide that this is not at all difficult to compass.

Milinery Fore-Glimpse.  
At the first opening in that wholesale millinery establishment where modes in headwear are hatched, there was a most interesting display, one-day this week. From this fore-glimpse, several important deductions may be made as to prevalent modes for spring and summer. Flowers, more than ever true to nature, will be worn to great profusion, often forming entire brims, or feeding the underbrims of picture-hats and the overturned bands of

off-the-face shapes. Bluets, or cornflowers are used, as they are usually for spring; roses or their petals are popular, generally in a burnt tone, less brilliant than the pink sometimes popular and more becoming. Handwork is shown upon many of the sports hats, taking the form of floral or conventional designs upon the outer side of crowns and brims. Worsted yarns are still in mode. Horsehair braids are used for entire hats in picture effect, and for shadowing brims of smaller ones. Straws, fine, coarse and medium, are shown for street wear and for use with the tailleur. The general trimming impression is of studied simplicity—a simplicity attained through concentration of materials to one region—either the underbrim, the crown, or the top of both, rather than a restricted employment of such materials.

The side scarf is observable, but not so insistently as in the earlier exhibiting.

**Trimming Note.**  
Ball trimming or ball fringe is a youthful note sounded in some of the new spring frocks and suits. Upon short jackets, edging tunics and sometimes upon sleeve cuffs, the finish lends a playful effect in keeping with the wish for a youthful atmosphere, so generally expressed in women's dress.

**Just from Paris.**  
The magic of the words "just arrived from Paris" is potent and where

the expression attaches to one altogether charming as our beloved Lucrèce, the witchery is beyond the power of words. At tea the other day, at the Alexandria, Lucrèce was the embodiment of the Parisian mode. Her snugly fitting redingote suit was of burnt rose, belted with rows of self buttons, set simply against either side the front, above the low hip flare. The high outstanding collar, lined with black, was completed by one of the high chin-caring, ruffles of white plisse line. The turban, shrouded in black coque, came well down over the arched brows and blended with the locks of the black hair, which was held in leash by a closely drawn complexion veil. Black gloves, stitched with white, the latest Parisian fad—completed the chic of a costume, which would cause heads to turn and lips to move in admiration, in any city in the world.

**Eyeblet.**  
Eyeblet embroidery has taken the neckwear world by storm. Especially becoming are the eyebletted vestees with attached collar, either in rounded flat effect, or bulged upon the choker plan. These in a deep cream color, or ecru, enliven the dark street suit or sports jacket, at the same time lending a refreshing note of femininity.

**The Crocheted.**  
The newest of vestees is of crochet, in rather a heavy silk thread stitch

and in a favorite color, usually one in contrast to the suit or blazer. The lady from the continent has made several for her Los Angeles friends, one of the prettiest being in a deep old rose, with just a touch of tan upon the edge of the Tuxedo collar, and in the balls and cords which fasten it at the front.

**Fashion's Tracery.**  
Black-and-silver ribbon belts a duty frock of apple green chiffon. A novel sports skirt is of cotton matelasse quilted like a counterpane.

A frock of gray crepe de chine has panels outlined in yellow ribbon. High collars and lace jabots will be worn with severely cut tweed suits.

Frocks of embroidered organza for southern wear have inserted bands of solid colored chiton.

Satin frocks show wide girdles and large collars of some flowered material.

White velvet and black Spanish lace—there you have a charming afternoon frock.

Summery hats of white voile are brilliantly embroidered and have huge drooping bows.

White satin and white net embroidered in white jet are combined for evening gowns.

A corn-colored frock of linen has bands of black kid hand-printed in red, green and blue.

A frock of tangerine chiffon is trimmed with silver lace, and bouquets of oranges and blossoms.

For sports wear a smart combination is the pleated silk or flannel skirt and a black Angora sweater.

A costume of blue duvetyne has short sleeves terminating in puffs of black satin and monkey fur.

A bolero jacket suit of beige rep is lined with blue, red and beige jersey and embroidered to match.

The street costume may be straight from shoulders to hem in front, but must be belted in the back.

With a pleated skirt of dark blue crepe de chine, embroidered in blue and silver.

GUARD TO GET SAME  
PAY AS ARMY MEN.

EMERGENCY AMENDMENT WILL  
STIMULATE RECRUITING  
IN LOS ANGELES.

Los Angeles members of the National Guard will get the same pay, equipment and privileges as men in the Regular Army, according to the emergency amendment to the existing law, passed by the Legislature and announced by Adj.-Gen. Borree in a telegram to Col. James S. McKnight, commanding the Los Angeles Infantry Regiment.

The amendment provides a minimum of \$1 for each drill for every private; pay of \$500 annually for officers below the grade of captain;

\$750 yearly for captains, and back to \$800 for officers above the captaincy.

The entire personnel of the National Guard organization must attend two-thirds of the drills to receive pay.

Of particular significance to the Los Angeles Infantry Regiment is the fact that the added advantage gained by the amendment will apply to those men who enlisted at the outset of organization and that it will act as a stimulant to rapidly recruit the regiment to its full strength.

Mal. Robert C. Cotton of the Army, who has just been assigned to the Los Angeles Infantry Regiment as inspector-instructor, Tuesday night began his duties at the Exposition Park Armory, collaborating with Col. McKnight and Maj. E. E. Kirk, commanding the First Battalion.

In behalf of the Adjutant-General, Maj. Kirk last night mustered in the Fifth Separate Company at Glendale, an infantry unit composed of men from Glendale and its vicinity.

ON EL PASO WARRANT.  
Emerson E. Hess, who is wanted in El Paso, on the charge of using the mails in a scheme to defraud, the exact nature of which is not disclosed by the warrant, was arrested at the El Paso Hotel yesterday by Dep. U. S. Marshal Monteleone, and held in \$1000 bond by U. S. Commissioner Long for removal to the Texas city for a hearing. Mr. Monteleone had been chasing Hess for the past three months.

# PUERPERAL DEMENTIA

FROM TOXINS OF BACTERIA OR GERMS

CURED BY FENOSOTE EMULSION

"ABOUT A MONTH AGO my wife was confined at one of the leading hospitals of S. F. and on the fourth day after delivery she had been carefully looked after medically, previous to her confinement and these convulsions were in the nature of a surprise to her medical attendant. The convulsions continued for some few days, when, under skilled medical advice they disappeared for two or three days, when they recurred in a more severe form, as often as thirteen times a day. This continued for two days, when they ceased, only to be followed by a loss of my wife's mental faculties. This condition was termed 'Puerperal Dementia,' which attending and consulting medical men agreed oftentimes follows convulsions of this character. Laboratory examination of the urine, in addition to albumin, a little blood and some pus cells, showed a great abundance of bacteria or germs. The toxins or poisons formed by these bacteria, the physicians agreed, caused the mental disease, which immobilized my wife being strapped down, in order not to allow her to force herself out of bed. She was more or less noisy, absolutely incapable of reasoning, speaking or the knowledge of recognition of any one about her. This condition continued until it was determined by medical consultation, that if it were to disappear at all, it would take many weeks or months, and the advisability of removing her to a sanatorium for mental diseases was discussed. Repeated examinations of the urine showed the bacteria always present in the same abundant number, and my wife's mental condition showing no improvement, it was determined to try Fenosote Emulsion, very cautiously at first, one teaspoonful every four hours. The following day there was a marked change for the better. She could recognize those about her, could answer questions, and the restlessness of her mind and body had disappeared and she could sleep peacefully; so the Fenosote was given a little more frequently, a teaspoonful every three hours. The next morning she was able to eat, her vision was much improved and her dizziness practically gone. She could smile and converse with those about her, but had no recollection of anything that had transpired during her illness or of having been brought to the hospital, though her memory of events prior to this was perfectly clear and normal. An examination of her urine at this time showed but a trace of albumin and an almost complete disappearance of bacteria, and the following day she was removed to our home, her mental condition completely restored and now rapidly regaining her physical strength. I write this article to let the world know that a defective condition of the mind, brought about by germs, can be overcome by Fenosote Emulsion, and I feel that many cases sent to State Asylums in the past, will now not have to go, for Fenosote will work equally as well in those cases as in the case of my wife."

H. F. ALDRIDGE,  
Cal. Saw Works, S. F.

# BUILDING HERE AMAZES HANSEN

Says No Other Part of World Shows Similar Activity.

Urges Joint Drive for Great Irrigation Systems.

Visit Abroad Convinces Him Red Terror on Wane.

"Considering the financial and housing situation, Los Angeles is in better condition than any city I have seen either in this country or in Europe," said former Mayor Ole Hansen of Seattle yesterday upon his arrival here following a tour of Europe and America. Mr. Hansen has been abroad studying Bolshevism and other world ailments and comes back filled with optimism for this country.

Discussing the building activity in this city Mr. Hansen said: "I have seen more buildings and homes in and around Los Angeles than I saw in all Europe and more than I have seen in any State in the Union. It has amazed me. I have covered practically the entire United States and everywhere but here have seen the slump come and come hard. Thousands are out of work throughout the world, I might say millions, but here you have barely got a lot as yet and if your citizens preserve the same spirit as I have seen manifested here there will be no great slump."

In the opinion of Mr. Hansen, building material is about to take a tremendous fall. Coming from the Northwest, the center of the lumber industry, he is able to give a prediction based upon close contact with that industry.

EXPECTS PRICE FALL.

"Building material will no doubt become cheaper," he said. "Lumber has already taken a decided slump; hardware, plumbing and paint must follow; then in my judgment will come the greatest building boom the world has ever seen. Not only will this be true in this country, but all over the world, which seems to be edging unobtrusively toward peace."

Discussing the undeveloped Colorado and Columbia River projects and said that the West should unite in forcing these two developments through Congress.

In speaking of this development Mr. Hansen said:

"There are more big buildings going up in Los Angeles than any other city in the world. I think there are many times more homes under construction than in any other State in the Union. You have a wonderful climate, a hospitable, kindly people, and there is room in California for all who would come. However, there is one matter your Congressmen and Senators in Washington should attend to, and that is the irrigation of the Colorado and Columbia River basins. Up in the Northwest we are intensifying the Columbia basin, which comprises over 3,000,000 acres of good land which, like your great basin, can be irrigated at comparatively small expense. These are the only two great irrigation projects left in the United States. For the good of the West, for the good of the entire country, why should not the West unite in Congress and put these two great constructive enterprises over? If we go singly for the Columbia basin we may lose. If you work only for the Colorado you may also lose. But if both crowds unite for the good of the country and work together we will both win."

The Seattle man believes strongly in the development of foreign trade from this port. With our water power and proximity to foreign countries he said that Los Angeles should take a place among the great trade centers of the world. He said: "It is also true that you have a land developed adjacent and tributary to your city, as well as more manufacturing plants. But one thing seems to me to be sure, and that is with the water power of your mountains you will be able to furnish cheap power, with your wonderfully fertile soil you will be able to raise and sell immense quantities of agricultural products, and, last but not least, you should study the business of the West Coast of Mexico, Central and South America, with most of the things they need from the States. The business men of Los Angeles should immediately create trade relations with this great southern empire, should study their languages and learn their methods and do business with them."

PRAISES WINDOW DISPLAYS.

Apart from being surprised at the building activity here, Mr. Hansen is delighted with the window displays in his stores. He said: "I want to compliment those responsible for the displays in the windows of your stores in Los Angeles. Both my wife and myself agree that the window displays show more taste and beauty than the show windows of New York City. Taken all in all Los Angeles is a wonderful city, but no more wonderful than its beautiful surroundings."

Mr. Hansen stated that this country has nothing to fear from the Red peril. He said that he had noticed on the streets here a campaign to fight Bolshevism. "If you only knew what the working people of Europe know about the soviet," he said, "you would believe that you had nothing to worry about. Large numbers of European Reds left their homes in groups of 200 or more to go to Russia. What few came back alive after being slowly starving, are preaching in the streets against Bolshevism. I have heard these speakers say that the worst conditions suffered in Germany today are nothing compared with those in Russia."

Mr. Hansen is at the Clark with his wife because of the illness of his daughter Doris, who attends school here. He also has the tenth heir to the Hansen name, who is just 5 weeks old.

ON SEWAGE PLAN.

City Engineer to Reply to Critics Regarding Outfall Project.

The controversy over the proper method of handling Los Angeles sewage has reached such a heated stage that City Engineer Griffin yesterday asked permission to address the members of the City Council to challenge and refute statements made by engineers who believe his plan for a \$12,500,000 new outfall sewer from the city to the ocean should be discarded in favor of a sewage treatment plant and the sewage sold for fertilizer.

Maj. Griffin, who met his opponents in debate last Saturday at the City Club, is scheduled to address the City Council this morning.

FRIDAY MORNING

UNION GR  
GUILJury Convict  
Building T  
Offered f

NEW YORK, Feb. 3.—The Building Trades Council of extortion from builders here. Shortly after the mandate to the Tombs when sentence will be years' imprisonment.

GOVERNOR OFFERS P  
ABERDEEN (Wash.)  
Gov. Hart today proclaimed a day of mourning for the man who attempted to assassinate the president of the American Legion headquarters last night by placing a dynamite with lighted fuse under a corner of the building, according to advice received tonight from Olympia, Wash.

POLICE today had no progress in their search for the man who was frightened from his attempt by Henry Carter, a member of the several suspects who were late last night, were unable to get on the affair, police said. A Japanese section man, whose name was withheld, was the dynamite in which the dynamite was released after the explosion.

TWO ARRESTED.  
Ben Johnson and John B. Reed as they were trying to get a night train to Seattle, were to have in their possession of ultra-glycerine, fuses, and rubber gloves, and a held for further investigation. Though police said they were to connect the men with the case, Fan Sagastia, at Hingham, Wash., today said by somewhat with the case of the dynamite, police by Lancaster, and is investigation.

MONEY WAS NEEDED.  
(BY A. P. MURPHY WIRE.)  
SAN FRANCISCO, Feb. 3.—Money was needed to keep the city well guarded at the Justice, C. Vincent Blockard, the city, John V. Phillips.

JAIL TWO  
Police Wound  
Being in

Suspected of being two men robbed J. C. Dennis while the auto ride early yesterday morning, a clerk, were caught by Detective Agency and fight in a hotel at West Third street when Detective Fitzgerald jumped out of a second-story window. Both men are now way robbery.

Detective Fitzgerald declared the suspects were members of the Western Union Telegraph Company at 2718 West street several weeks ago and from the safe after the forced Manager Richardson, closest at the points of the robbery.

The robbery of Mr. Dennis.

THE DAY'S  
THE SKY. Clear; Wind at 100 miles per hour. 67 degrees. 48 degrees. Forecast for Los Angeles: Friday cloudy. For the weather data see last page.

THE CITY. If lawyers can't get Mrs. Foster's case out of court tonight, public defenders, great annoyance, refuse to let her tell her story on a stand.

Two negro highwaymen, who were captured after a chase to highway and escape by the running board of a stolen car, were today charged with robbing a driver to speed up by the car with rifle, car and man vanished.

Suspected members of the Ku Klux Klan were captured after a chase to highway and escape by the running board of a stolen car, were today charged with robbing a driver to speed up by the car with rifle, car and man vanished.

Chamber of Commerce. A bill to be introduced in the state legislature for Los Angeles, which now can use police to try evaders.

PACIFIC SLOPE. Twenty million dollars for wages of workers for two years in the of Gov. Stephens.
